

Fabric Options

Following is a complete list of the fabrics currently available for De La Espada, Autoban, Leif.designpark, Matthew Hilton, Studioilse, Søren Rose Studio and Benjamin Hubert products. All fabrics are chosen for their luxurious texture, enduring performance, and rich colour.

Microfibre

Microfibre Suede

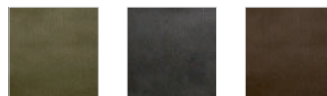

Our Microfibre Suede is a hardwearing man-made fabric with superfine threads for the lightest and softest pile.

Cacao Tobacco Chestnut

Microfibre Silk

Our man-made Microfibre Silk has a smooth, silky surface with a unique texture.

Brass Zinc Copper

Leather

Finished Leather

Our natural cowhide leather is soft and supple, its premium quality evident through the expansive and naturally consistent hides found on our furniture. The leather is finished for ease of care.

Liquorice Chai Chocolate Dune Ivory

Naked Leather (Studioilse only)

Our natural cowhide leather is soft and supple. Naked leather is unfinished for a smooth, rich, natural feel.

Black Brown

Perforated Automotive Suede (Benjamin Hubert only)

Our natural cowhide suede is soft and supple. Our perforated automotive suede is unfinished for a natural feel.

Mulberry Anthracite Merino Sand

Velvet

Our natural cotton velvet has a delicate softness and familiar warmth.

Navy Aubergine Moss Mushroom

Wool

Our natural wool fabrics are soft, hardwearing and suitable for all climates.

Charcoal Espresso Fudge Blackberry Basil

Limestone Ginger Black Pepper

Linen

Our linen is made of natural fibres from the stems of a flax plant. It is hypo-allergenic with a hand-woven, rustic quality that is subtly luxurious and simultaneously utilitarian.

Bark Blueberry Eucalyptus Sahara Sandstone
