

BLUE STEEL
Wear It. Feel It. Love It.

Find the Perfect Size... the First Time

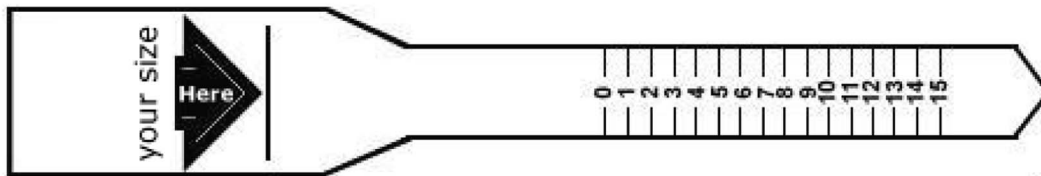

Your printable guide to sizing your ring with three accurate techniques.

Grab a quarter, place it on top of the printed quarter. If both are the same size, you are ready to size your finger!

String Method

1. Cut a piece of string, ribbon or thread long enough to wrap around your finger
2. Wrap it around your finger snugly when your finger is warm
3. Mark where the string meets the start with fine tip marker, pencil or pen
4. Place the end of the string touching the line under "Your Size" on the sizer below. Pull the other end along the length of the sizer and the mark will indicate your size.

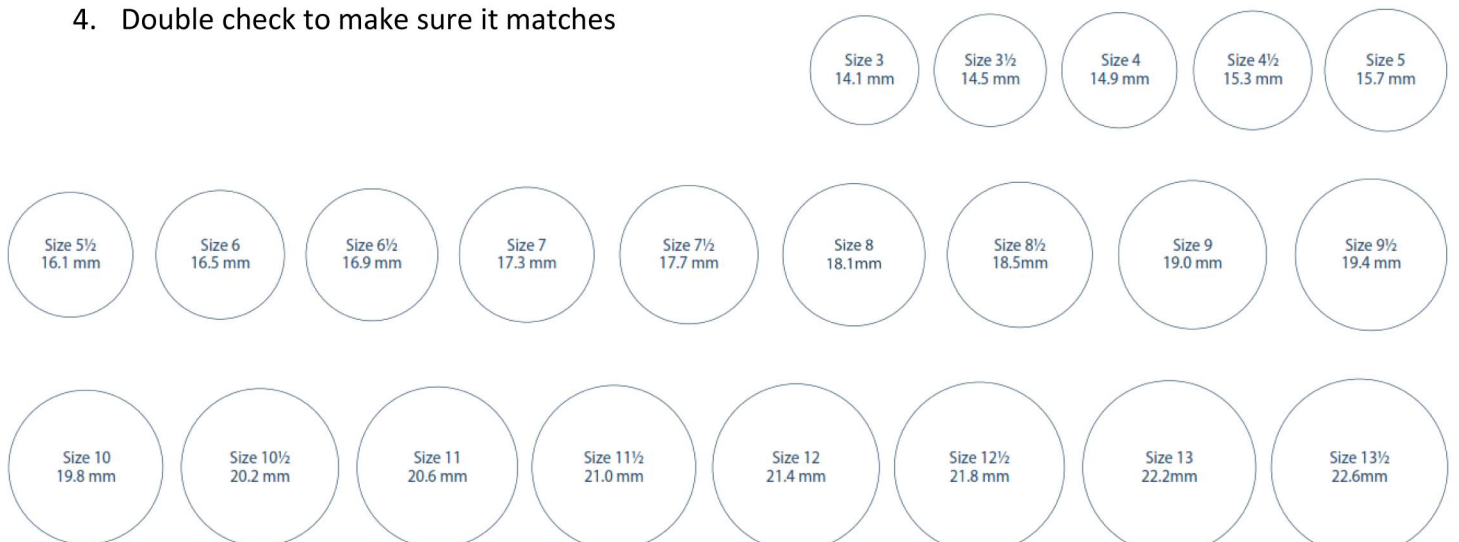

The Paper Method

1. Print and carefully cut out the ring sizer above. (Make sure to check size accuracy with the quarter above)
2. Cut the slit where the sizer says "Your Size"
3. Place around your finger and pull the pointed end through the slit to create a snug fit (not too tight)
4. The number nearest the slit indicates your size.
5. Double check for accuracy

Surprise Method

1. When your loved one isn't home, find one of their rings
2. Print out the above ring measurement chart, check size of page for accuracy
3. Place the ring on the image that matches perfectly with inside of your loved one's ring
4. Double check to make sure it matches

Tips for Accurate Sizing

MEASURING YOUR FINGER

Your ring should fit snugly, comfortably on your finger; snug enough that it doesn't fall off but loose enough it can go over your knuckle

The temperature does change the size of your finger. Depending on the time of the day and the weather, your finger will shrink and grow in size. For the best results, measure your finger in the afternoon while they are warm.

Measure your finger more than once. Measure your finger 3 or 4 times for the most accurate measurement. Ask a friend to help you out to make sure you have the right size.

RINGS AT BLUE STEEL

Women's rings typically range from size 5-8 at Blue Steel. Your most popular ring size for women is size 7.

Men's rings typically range from size 9-14. The most popular ring size for men at Blue Steel is 10.

Keep the ring a secret by asking your significant other's mother or friend their ring size.
