

Installation Steps

plug-in for SMART Board (shown for Autodesk® Navisworks® Manage)

STEP 1 - Click the link provided in the order confirmation email, this will take you to the licensing/download page for idsDesignTOUCH. On this page you will find links to the product installer and the license code for your purchase. Click the link associated with the installer that fits your hardware platform (32bit or 64bit).

The screenshot shows a web browser window with the URL `licensing.idsdesigntouch.com/?id=131196048&zip=40223`. The page content includes the idsDesign TOUCH logo, a 'Thank you for your order.' message, and a 'YOUR ORDER' section. This section contains a table with billing and order information, a table of items, and a summary of costs.

Billing Address	Order Date
Name: Jim Smith Address: 1235 South Plymouth St Louisville, KY 40223 US	5/15/2012

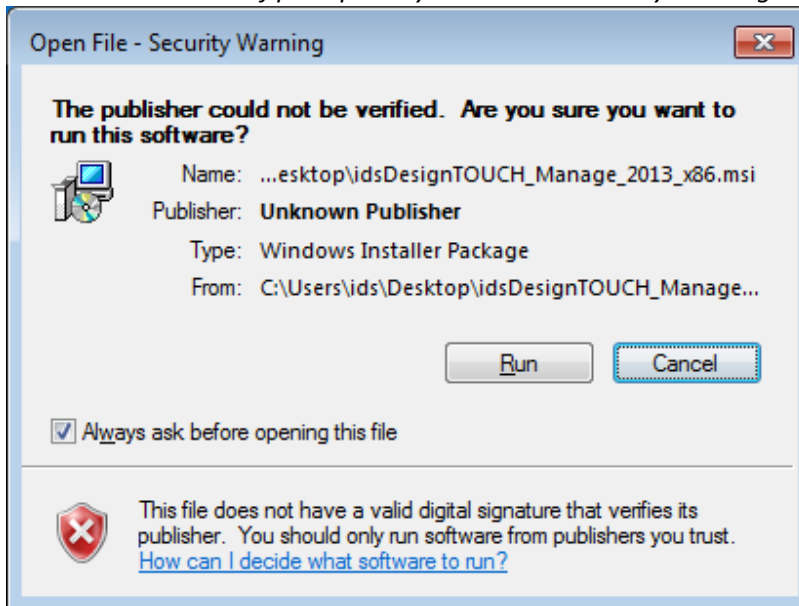

Qty	Product	License Code	Price
1	Autodesk Navisworks Manage plug-in for SMART Board - Navisworks Manage 2013 Download 32-bit Installer Download 64-bit Installer	LKY842BQ	\$695.00

Subtotal:	\$695.00

STEP 2 - Once downloaded, simply double click the installation file.

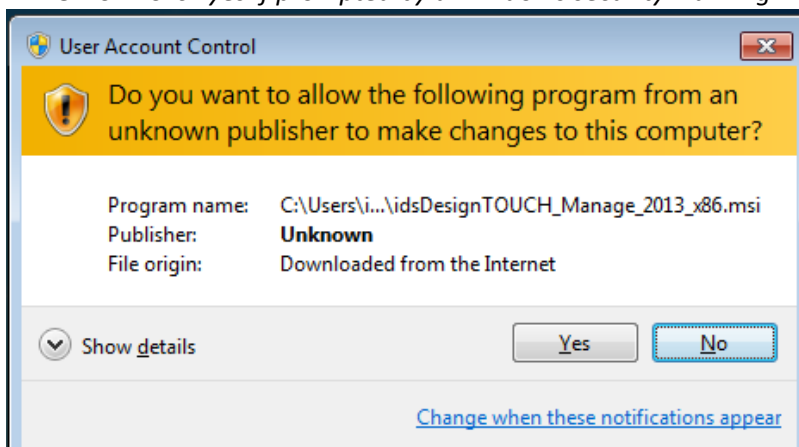

NOTICE: Click run if prompted by a Windows security warning.

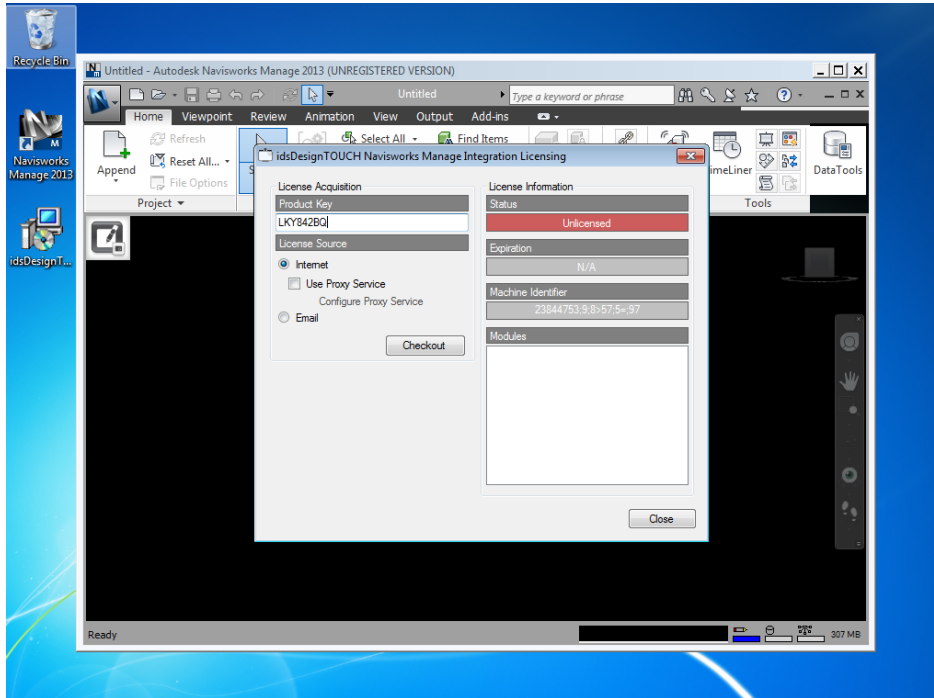

During the installation process you will see the following dialog.
No user input is required during the installation.

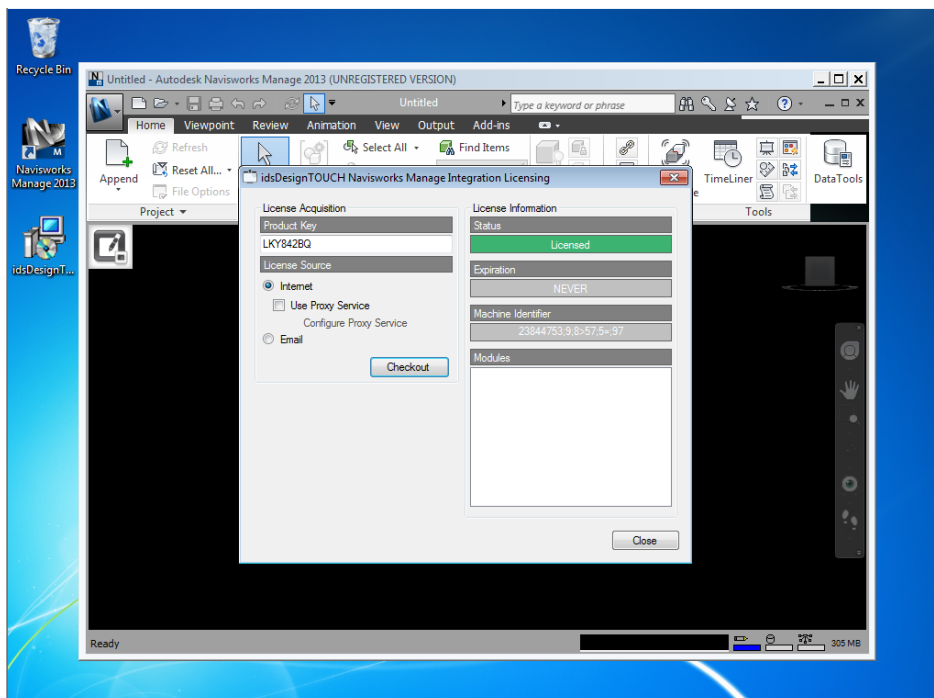

NOTICE: Click yes if prompted by a Windows security warning.

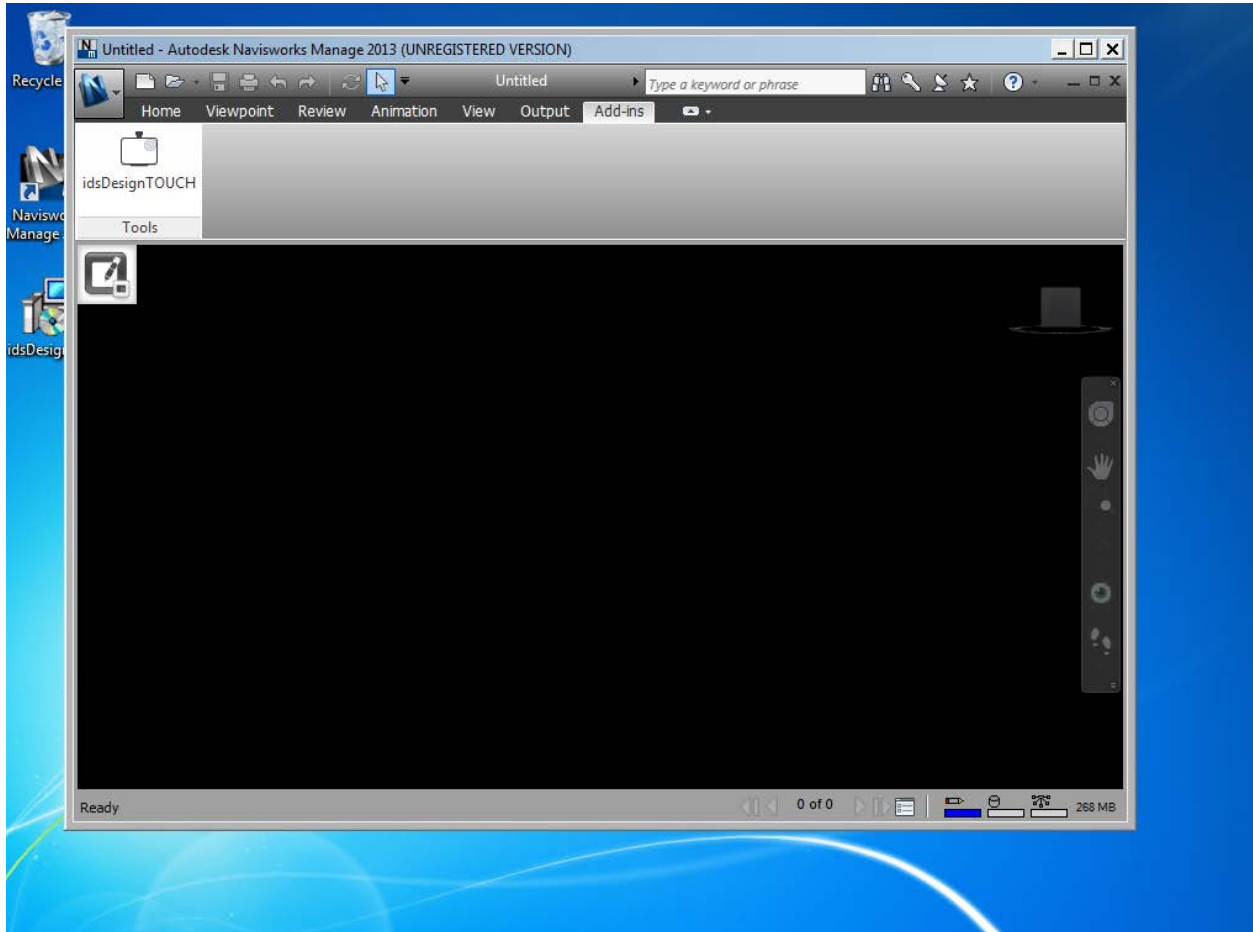

STEP 3 - Launch your Autodesk software. The first time you do this after completing the installation, the licensing interface for idsDesignTOUCH will be presented. In the Product Key box, put in the license code that you were provided with in Step 1.

STEP 4 - Click the Checkout button. If you are able to obtain your license successfully, the Status box will turn green. Once you see that licensing is completed click the Close button.

STEP 5 - Within your Autodesk software ribbon toolbar, click the Add-ins ribbon selection. Under the Tools section of the menu you will see the icon that indicates that the idsDesignTOUCH application has been installed.

Congratulations. You have successfully installed the idsDesignTOUCH plug-in.
