PRIZES

Hawk Wargames will be offering prize support on the day for the following categories:

- 1st, 2nd, 3rd
- Judges best painted
- Most Sporting

PAINTING & MODELLING

We all prefer to see fully painted armies on the battlefield, however as this is a new system and we want people come and have fun at the event you **CAN** play with unpainted models, no one wants to be rushing to finish their army in time and risk ruining their models! To reward those that have managed to fully paint their armies we will be running 2 painting competitions. The first is a Judges best painted, which will be chosen by Dave, the second will be a painted raffle which everyone who has the 3 colours minimum standard on all their models will be entered into.

We fully support and encourage modelling and conversion, however we ask that only Hawk Wargames models are used at this event, with the exception being conversions where we ask that a Hawk Wargames model has been used for the majority of the model.

TABLES & TERRAIN

The tables will be set up by the judges before each round and we ask that you don't modify or change the board in anyway, however if you feel the board is not appropriate you can call a judge over who will ensure it is balanced. Before each game you should discuss the terrain with your opponent and ensure you are both in agreement regarding the height of each building (for flyers), if there is enough space to land dropships on the roof and the number of damage points each building will contain (See Below).

BUILDING DAMAGE POINTS

During this tournament all buildings will have armour 6 unless stated otherwise and will have either 10, 20 or 30 damage points each. During the event briefing the referees will give examples of the amount of damage points buildings should have, relative to their size, but it is up to you and your opponent to agree before the game what damage points the buildings will have on your table. If you are unable to decide then a referee will make the final call.

SCENARIOS & SCORING

Each round will use one of the following scenarios:

- Targets of Opportunity
- Recon
- Surging Strike
- Bunker Assault
- Military Complex

Scoring

Invasion USA 2014 will use a variant of the 20-0 scoring system, you will earn game points based upon the difference in Victory points between you and your opponent but the difference in kill points is also taken into account.

To calculate your game points each round, you first determine the VP difference between both players using the following table:

Then using the Winners Kill Point difference table the winner adds any bonus points scored and the loser deducts the same amount. Note this may result in neither player modifying their scores if the winner of the game ended up losing more KP's than his opponent or the game was a draw.

In each round you will play one of the preset scenarios. In the first round, you will be matched randomly against an opposing player. After that, in each round the two players in 1st and 2nd place will play each other, the players in 3rd and 4th place will play each other; the players in 5th and 6th place will play each other, and so on. If you have already played an opponent in a previous round, you can ask a referee to swap your opponent with a neighbouring one. If players are tied on Game Points then their overall Kill Point total will be used to determine their position after each round.

VP Difference	Game Points Scored
0	10 - 10
1	11 - 9
2	12 - 8
3	13 - 7
4	14 - 6
5	15 - 5
6+	16 - 4

Winners Kill Point Difference	Bonus Game Points Scored
0-200	1
201-400	2
401-600	3
601+	4

ERRATA AND RULES DISPUTES

The Tournament will use the latest versions of the FAQ's and Errata documents, providing they are published prior to Friday 24th January 2014. If a rules dispute arises we would always ask that you try to resolve the issue by yourselves, however if you feel a amicable decision can't be reached then you can call a referee over. Please be advised that from the moment of entry into the event the decisions of the referees regarding the fair adjudication of the event rules and all issues of health and safety are final. No discussions will be entered into once a decision has been made.

TARGETS OF OPPORTUNITY

Some key Objectives have been detected inside a group of Structures in the heart of the warzone. Your aim is to enter these Structures, find and seize these Objectives, and extract them before the enemy has a chance to do the same!

NUMBER OF PLAYERS: 2

ARMY ROSTER: Standard (both players)

DEPLOYMENT: All Battlegroups begin the game in Readiness. Fast Mover Squads start in Reserve.

DURATION: 6 Turns

VICTORY CONDITIONS: The player with the highest number of Victory Points at the end of turn 6 wins the game. Use Kill Points to determine a victor in the event of a tie.

RECON

In the opening hours of battle, an expeditionary force has been sent to reconnoitre a promising strongpoint. This is an excellent opportunity to identify defensible buildings - the only trouble is that enemy forces are scouting the area as well!

NUMBER OF PLAYERS: 2

ARMY ROSTER: Standard (both players)

DEPLOYMENT: All Battlegroups begin the game in Readiness. Fast Mover Squads start in Reserve.

DURATION: 6 Turns

VICTORY CONDITIONS: The player with the highest number of Victory Points at the end of turn 6 wins the game. Use Kill Points to determine a victor in the event of a tie.

SURGING STRIKE

You have been tasked with driving deep into the enemy territory to occupy some crucial areas in this sector. The enemy will most likely attempt to thwart you, since holding these areas will be critical to overall victory.

KEY:

Player Deployment Zones

6" In from friendly Table Edges and up to 12" from the corner

Focal Points

Place one roughly in the centre of the battlefield, and one in each Table Quarter outside all Deployment Zones.

Focal Points may be anything worth taking, such as key Structures, high ground, important features, cave entrances etc.

RECOMMENDED NUMBERS:

2 Player Skirmish:

Use black bordered only

2 Player Clash:

Use black and red bordered

Battle:

Introduce an extra Focal Point in each Table Quarter

NUMBER OF PLAYERS: 2

ARMY ROSTER: Standard (both players)

DEPLOYMENT: Battlegroups begin the game in readiness. Fast Mover Squads start in Reserve.

DURATION: 6 Turns

VICTORY CONDITIONS: The player with the highest number of Victory Points at the end of turn 6 wins the game. Use Kill Points to determine a victor in the event of a tie.

Surging Strike - the 2 focal points on your opponents side of the table are worth 1 Victory Point to you if you have a friendly Vehicle Unit or Infantry base within 6" (as usual). However they grant an additional 4 Victory Points if you are the player with the most units in points cost within 6" (instead of the normal 2).

BUNKER ASSAULT

You are both fighting over key planetary defences, and it is your mission to take and hold a bunker complex linked to an orbital laser. This is a high value target to capture - be prepared for enemy contact!

NUMBER OF PLAYERS: 2

ARMY ROSTER: Standard (all players)

DEPLOYMENT: All Battlegroups may Directly Deploy (remember that Squads inside aerial transports automatically start the game in Readiness in this case). Fast Mover Squads start in Reserve.

DURATION: 6 Turns

VICTORY CONDITIONS: The player with the highest number of Victory Points at the end of turn 6 wins the game. Use Kill Points to determine a victor in the event of a tie.

Surging Strike - The 5 focal points in this scenario will be within bunkers. The bunkers can't be destroyed and are immune to falling masonry, however they can still be targeted by flame weapons as normal. Infantry inside the bunker are worth double their unit points when calculating who is in control of the focal point.

MILITARY COMPLEX

Some key Objectives have been detected inside a group of Military Structures in the heart of the warzone. Your aim is to enter these Structures, find and seize these Objectives, and extract them before the enemy has a chance to do the same!

NUMBER OF PLAYERS: 2

ARMY ROSTER: Standard (both players)

DEPLOYMENT: All Battlegroups begin the game in Readiness. Fast Mover Squads start in Reserve.

DURATION: 6 Turns

VICTORY CONDITIONS: The player with the highest number of Victory Points at the end of turn 6 wins the game. Use Kill Points to determine a victor in the event of a tie.

Due to the important nature of this sector, all buildings in this scenario are hardened, and are Armour 8.
