Soflex Hygiene Chair

Ref: Manual 5601.00UK / Powered 5605.00UK

*Transport, toilet, shower
and posture management
in one product*

The **Soflex** Hygiene Chair is a highly versatile and height adjustable commode and shower chair that makes hygiene procedures safe and comfortable for both patients and caregivers. Its integrated tilt system assists posture management during patient transfers and its high-low function, available as a manual or powered version, allows easy access for routines such as toileting, showering and hair washing.

Three year
warranty
