neve / hawk

MADE IN THE
USA

We're about **simple**, deliciously comfortable clothes that speak to the heart of childhood. Our collection is made from soft, wearable fabrics. We limit the trim, buttons, and zippers to maximize **comfort** and stand up to hard play. The pieces are **versatile** and designed to be layered and (mis-)matched. Many are reversible or convert into another garment, great for quick changes when kids inevitably dirty one side. The endless combinations create looks that are unique yet wearable. **Playful** designs and artistic touches appeal to the edges of children's imaginations.

Designed in and inspired by the Lowcountry of South Carolina

We love to imagine and create, and at neve / hawk we get to turn that into something real. This privilege of ours comes after a lifetime of being encouraged through school arts education programs -- to explore our creativity through art, dance, music, illustration, and theater.

Our parents AND our schools taught us how to push creative boundaries. And this partnership changed our lives. It fueled our passions and gave us a path forward.

Sadly, this nurturing environment is no longer available for many children, as arts education programs are being removed from their schools. It is our job to fight for their well-rounded education -- to fight for their imaginations to be pushed and boundaries to be broken.

**FIGHT FOR
CREATIVITY**

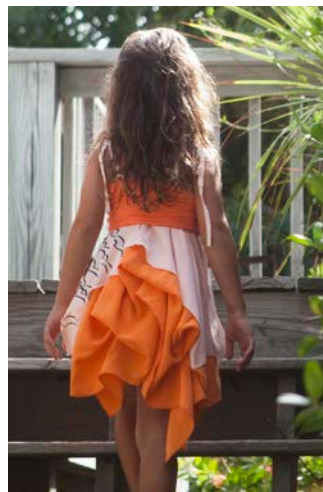

**IT IS OUR JOB TO FIGHT
FOR THEIR CREATIVITY.**

*neve / hawk is committed
to this cause. We show our
love for the arts and our*

*gratitude for creativity in our lives by
personally hand screening original
artwork onto our garments and by
donating a portion of every sale to
help keep the arts in public schools.*

A young boy with dark hair and light eyes is sitting on a concrete ledge. He is wearing a white baseball cap with a small logo on the back, a grey sleeveless t-shirt, and brown shorts with a white and blue patterned waistband. He is looking directly at the camera with a neutral expression. In the foreground, a string of white bunting with various patterns (dots, stripes, and solid colors) is draped across the frame. The background consists of tall, green grasses and a blurred wall.

neve / hawk spring summer 2013
