

iDivide™ your space...

Modern Designer Room Divider Wall Systems

iDivide™ Designer Room Divider Walls are a unique and dynamic alternative to standard divider privacy screen partitions. The flexible modular design enables the creation of a variety of configurations. The interchangeable modular infill panels are available in an assortment of colors and finishes.

StudioWall™ is a modular partition wall system that is made of the highest quality sturdy clear anodized aluminum frames. All iDivide™ Room Dividers and Partition Walls are an easy to assemble do-it-yourself system. The frames can be custom factory painted in a variety of colors.

iDivide™ Flexible Modular System

Overview

Specifications

Modular Sizes

Widths 27", 35", 51", 60", 68", 75", 84", 100"
Heights 51", 58", 75"

Frame Finishes

Clear anodized aluminum.
Custom powder coat paint finishes available.

Panels

.25" thick panels are available in a variety of translucent and opaque materials, wood grain laminate and colors.

Support Bases

3/16" thick steel with powder coat paint.
Custom powder coat paint finishes available.

Frames

2" diameter round vertical support post.
.75" thick by 1.375" high horizontal and vertical panel frames.

Features

- Easy to assemble in just minutes
- Flexible modular system allows for almost any configuration
- Easy to change and re-arrange panels and wall layouts
- Solid sturdy aluminum frames in clear anodized finish
- Custom frame paint colors available in durable finishes
- Made in the USA

Details

Round Vertical Post Add-on Modules

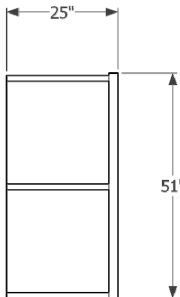

Connects to a full starter wall section to create a wall that is as long as needed. Add-on modules include only one vertical post that has connection slots on opposite sides.

Square Vertical Post Add-on & Corner Modules

Connects to a full starter wall section to create a wall that is as long as needed. The square vertical post is only available with the connection slots on all four sides, so it can be used to connect a straight or 90 degree angle corner return wall.

Panel Types

Twinwall Translucent

Hammered Freeze Translucent

- textured ribbed polycarbonate
- high light transmission
- blurs view
- face of panel is smooth
- standard stock panel option

White Translucent

- ribbed polycarbonate
- medium light transmission
- blocks view for full privacy
- face of panel is smooth
- works with dry-erase markers
- standard stock panel option

Clear Translucent (special order)

- ribbed polycarbonate
- maximum light transmission
- clear slightly distorted view
- face of panel is smooth

Natural Maple Wood Grain

- Natural Maple laminate finish
- Solid material
- No light transmission

Solid Opaque Plastic Colors

- Matte surface finish
- Solid color material
- No light transmission
- Assortment of colors available

Translucent Acrylic Colors

- Smooth glossy surface finish
- Varying light transmission depending on the color
- Assortment of colors available
