

COFFEE SUPREME

BRAZIL

Chocolate & Hazelnut | Smooth & Rich

ESPRESSO BLEND

BRAZIL

SUITS

Espresso, plunger, stovetop

ABOUT

A blend of several excellent Brazils, roasted medium dark to give a milk chocolate cup, a smooth silky body and a long finish. Lower in acidity, Brazil Blend makes plush espresso, and mixes well in milk drinks.

The farms contributing to this blend are of the new generation of coffee producers in Brazil. These farms have adopted a quality-focused, low yield approach with environmental concerns to the fore, and are showing the rest of the local industry that this is indeed a sustainable and profitable model for coffee production.
