

# Battleships!

## You need:

- 2 players.
- Our Party Fun Box Player Printouts
- 2 Pencils

## Goal

To sink all of your opponent's ships before they sink yours!

*The Grids have 100 squares one labeled "Player 1 or 2" and the other labeled "Opponents' Ships."*

Each player decides where to place his four ships:

1. a 5 space battleship
  2. a 4 space cruiser
  3. a 3 space submarine
  4. a 2 space destroyer.
- (or pick whichever type of ships that you want!)

The ships may NOT be placed diagonally—they must be placed in straight lines either horizontally or vertically. The ships are marked by drawing a ship shape in the correct number of spaces.

## Gameplay

Players take turns taking shots at each other - the player will call out the coordinates of a space on the 10x10 grid... i.e. "A5!" or "B8!"

Each player takes one shot at a time.

The player calls the coordinates of a space and his opponent lets him know if he hit the ship by yelling out "Hit!" (if successful) and "Miss!" (if unsuccessful). When the ship's Squares has been completely hit - the player yells out ... "You sunk my Battleship/Cruiser/etc!"

Players should carefully mark the shots they take on their "Opponent" grid, and if the shot was a hit or miss, so they don't call a space more than once. Players should mark the "Self" grid with shots taken by their opponent.

First person to Sink all their opponent's ships first wins!!
