

<b>Description:</b>	USB 3.0 Light Blue Cable	<b>Vendor:</b>	Dueltek USB
---------------------	--------------------------	----------------	-------------

#### Product Information

Suitable for devices equipped with USB 3.0 ports such as Video devices, Camcorders and Hard drives which require faster data transfer

USB 3.0 is backward compatible with USB 2.0, so it can also be used with existing USB devices.

- Higher speed: SuperSpeed transfer rates up to 5.0Gbps - about 10 x the performance of USB 2.0
- Duplex transfer: Full duplex data transfers over two differential pairs; to read and write data at the same time.
- Cable Shielding: High quality shielded twisted pair (STP) helps prevent electro-magnetic interference
- Type variations: Type A and Type B in various male and female combinations, 1m to 3m.
- Gold contact connector plating of 3 micron
- Bus power: Increased maximum bus power and increased device current draw to better accommodate power hungry devices.

<b>Product Weight:</b>	<b>Product Dimensions:</b>
0.05 (Kg)	170x160x20 (Width mm x Height mm x Depth mm)

Please Note: Weights & Dimensions shown are based on the product itself and not the product with it's packaging. As some products will not physically fit into our standard 1, 3 and 5KG courier satchels, freight cost may vary depending on product packaging and shipment size.
