SUREBONDER®

Acrylic Hot Melt

925R10 High Temperature Glue Sticks

Introducing a unique high-performance acrylic adhesive developed for superior bonding to hard-to-bond surfaces. This adhesive is strong, remains flexible, and has a medium open and set time. Our 925R10 Acrylic Hot Melt Glue Sticks bond substrates when other hot melt glues fail!

Bonds to: Glass • Coated Papers • Metal • Concrete • Foil • Wood • Ceramic • Leather • Rubber • Nylon • Tile • Stone • Brick • Fabric • Vinyl • Acrylic • Plastics: Polycarbonate, PVC, ABS, Polystyrene, PET, Polyethylene, and More

Applications: Product Assembly, Carpet Tack Strips, Packaging, Molding/Trim, Sample Boards, Craft Projects, Repairs, and Many Others!

For best results a high temperature glue gun is required for 925R10 use. We offer a wide variety of high temperature glue guns for most consumer or industrial applications. The higher the glue gun wattage, the greater the glue output.
