4. Click on your iPad in the **Devices** menu. Then click the **Sync** button located in the lower right-hand corner of your iTunes window. This will transfer the book from your iTunes account to your iBooks account located on your iPad.

5. On your iPad, open the iBooks app. You should now see your ebook loaded into your iBooks library.

Some iTunes accounts may be configured differently and won't look like the images we've shown you so far. Here's another way to get the same files onto your iPad.

1. Open iTunes, then connect the iPad to your computer using the USB cable that came with your device. On the left-hand side of your iTunes screen under the **LIBRARY** heading, click **Books**.

- 2. Locate the .epub file that came with your product download. It's key that you find the .epub file because that is the desired file type when loading content onto the iPad. Drag the .epub file to the **Books** folder shown above. You should now see that file in the **Books** folder.
- 3. Click on your device, as shown below.
