

The Goldtouch Comfort Mouse and Mouse Pad

Point and Click your Way to Happiness.

The Goldtouch Mouse and Mouse Pad are designed for ultimate comfort; they are the perfect companions for your computer. This pair is built from the ground up to help put your hand, wrist and arm in a natural position that alleviates pressure on your tendons and joints.

The Goldtouch Comfort Mouse is all about perfect harmony.

The Goldtouch Comfort Mouse, was designed to mirror your hand, wrist and arm in a weightless environment. The Goldtouch Mouse ensures that your hand is in a relaxed position that's well supported by our oversized thumb cushion and grip. Our oversized buttons allow fingers of all sizes to activate (click) without bending the fingers in an awkward or uncomfortable position. It's one mouse you'll actually want to keep in your house.

Key Features:

- Available in Right Handed, Left Handed, and Bluetooth versions, the mouse is compatible with Windows 2000, XP, Vista, Windows 7, and Mac OS 10.4 and newer. Simply plug and play (no driver installation required).
- Slope - Don't worry, this isn't a physics class. Let's just say our mouse has the perfect curves to reduce stress on your pressure points and make your mousing experience a happy one.
- Cushion and Grip - Our oversized thumb cushion helps hands of every size maintain a comfortable grip without increasing the pressure applied by the thumb.

The Goldtouch Mouse Pad is the perfect place to house your mouse.

The unique design of the Goldtouch Mouse Pad allows users to mouse in greater comfort. The mousing platform features a gentle slope and curve to better protect your hand and wrist from hard surfaces and ensure that you're in maximum mousing comfort. The pad is made of dual textured stress-dispersing gel, with a Lycra cover providing excellent trackability.
