## Product No. 1702

### Sliding Beam Anchor

Rev. no.:  
Date:  
Page:

#### Product Description:

FCP's Model 1702 Sliding Beam Anchor functions as a mobile anchor point on structural steel I-beams. The anchor can be used on either the top or bottom of an I-beam, and will slide along the length of the beam as the worker moves. The 1702 Sliding Anchor will fulfill one part (Anchor) of a fully functioning fall arrest system, and must be used in conjunction with a full body harness, and a connecting device such as a shock-absorbing lanyard or self-retracting lifeline.

#### Specifications:

- Fits Flanges 3 ½" to 14" wide and up to 1 ¼" thick
- Maximum load capacity is 400 lbs
- Lightweight at less than 4 lbs
- One-handed operation
- Meets or exceeds all OSHA and ANSI requirements
