DECOR TIPS ON A DIME

on Their Minds

FINE PRINT

This just in: wall-art-worthy silhouettes made with newspaper and paint. To DIY, find shapes you like online (search for "free clip art"). Trace each outline onto a sheet of acetate; cut it out with an X-Acto knife. Spray the back with low-tack spray mount; place it on the paper, sticky side down. Thinly and evenly coat with matte-black spray paint. Let dry, then carefully peel off the acetate. Use black frames with white mats to make your prints pop.

Photographs, clockwise from top right: BURCU AVSAR, styling by Laura Fenton; LARA ROBBY/STUDIO D (all stills except chair).

Try This Trend

HOUNDSTOOTH

Named for its resemblance to a dog's tooth, this versatile pattern is easier to incorporate than plaid, yet a step up from standard checks.

- Black, white, and shapely, Room & Board's club chair (left, \$900) will be your sofa's new best friend—and your favorite spot to curl up in
- With its oversize update on the print, Blissliving Home's rose linen pillow (left, \$75) can add whimsy and punch to a neutral chair
- In2Green's throw (top right, \$105) comes in six hues (wisteria, avocado, and slate blue are shown) to match nearly any space's color scheme
- For a subtle touch, try Etsy's laser-cut bamboo coasters (middle right, \$30 for four)
- Quickly class up a bathroom with crisp bath accessories (bottom right, \$25 each) in durable resin from Kohl's
