

CRYE PRECISION™

2013 PRODUCT GUIDE

# SERVING THOSE WHO PROTECT FREEDOM™

## FOREWORD

**A**nimals instinctively seek freedom and resist being caged or confined. It is a primal truth, obvious to all, that freedom is better than the alternative.

Individual liberty is the primary founding principle of our country. The results of this principle can be seen in the astonishing amount of human progress that has been generated here in the past 237 years. It is no mystery why nearly any list of human achievements since our founding is dominated by American names. It is no mystery why the first human to set foot on the moon had an American flag on his arm. And it is no mystery why we were able to build the most productive economy in the world.

It is no mystery because when free people are free to pursue their ideas and build things together, the results are truly limitless. Humans are awesome, and Americans have set the standard with a few small contributions like the light bulb, the airplane,

the telephone, the TV, the microchip, the personal computer, the mobile phone, the internet... The list is endless. This isn't because Americans are born smarter – it's because America provides the opportunity for success and, in doing so, it attracts the best from all over the world. It does so with one simple promise: freedom. Here we simply agree that you are in charge of and responsible for yourself. We won't regulate, tax, steal, silence, oppress, or coerce you out of pursuing your dream. In fact, we have an army of like-minded people ready to help you build it.

Or at least this used to be our message. Currently freedom is under attack from both internal and external groups. The internal ones crusade against freedom under the premise that they know what's better for you than you do – all they need is a little bit more of your liberty. This is a trap. The external threats seek to intimidate us through violence. These groups must be defeated not appeased. Americans should never apologize

for our freedoms. All of our strengths as a nation are derived first from the freedoms of our individuals. Our armed forces are a perfect example of this. The most powerful military in the world is an all-volunteer force. It serves no tyrant or mob. It is made entirely of free people who freely chose to defend their country.

Freedom doesn't offer any guarantees. It does not promise any free stuff. Freedom doesn't give everybody a ribbon for participating. You cannot sue freedom when you spill your coffee on yourself, because like life itself, freedom is inherently risky. But when the question is asked, "Is freedom worth it? Is it worth the risks and uncertainty that come with it?" The answer is immediately, "Yes." It is always 'yes'. For the sake of all those who have defended your freedom with their lives, the answer is forever 'yes'.

*Caleb Crye*  
January 2013

ANYONE WHO SUPPORTS FREEDOM IS OUR FRIEND.  
ANYONE WHO PUTS THEIR LIFE ON THE LINE TO PROTECT IT IS OUR HERO.  
ANYONE WHO SEEKS TO DESTROY IT IS OUR ENEMY.

## G3 COMBAT PANT™

### FEATURES

Unique low-profile waist adjust system ▪ Each cargo pocket conceals water bottle/magazine stabilizer ▪ Dedicated knife/light holder that still allows pocket access ▪ Simple kneepad height adjuster located in front thigh pocket ▪ Designed for use with removable AirFlex™ Combat Knee Pads ▪ Built-in flap covers kneecap opening when not using knee pads ▪ Stretch diamond gusseted crotch ▪ Rear zip pockets ▪ Larger expansion panel at lower back ▪ Larger front thigh pockets ▪ Double seated rear

### DESIGN

Designed as a no-compromise assault uniform, these pants are aggressively cut for maximum mobility. These combat-proven pants are sized in 2-inch waist increments and multiple lengths for a perfect fit. Features a unique padded waistband and hi-mobility stretch panels at the knee and lower back. 10 pockets. Designed for use with our patented removable AirFlex™ Combat Knee Pads (sold separately). Base fabric is Mil-Spec 50/50 NYCO ripstop with durable a 4-way stretch-woven accents. Zip fly with Velcro® closure. Unique low-profile adjustable waist feature. Patented, other patents pending. Made in the USA from US materials.

PHOTO SHOWN WITH AIRFLEX™ COMBAT KNEE PADS (SOLD SEPARATELY)

Available sizes: 28–46 waist in Short, Regular, and Long lengths.

## G3 COMBAT SHIRT™

**FEATURES**

Comfort placket behind zipper ▪ Double layer bicep pocket ▪ New eye-pro holder and pen pocket ▪ Flexible Velcro® configuration on bicep pocket ▪ Streamlined elbow pad configuration designed for use with our patented removable AirFlex™ Elbow Pads (sold separately)

**DESIGN**

The design that started a movement. When we developed the first version of our signature shirt, we had no idea that it would lead to such widespread adoption of our basic design. The G3 Combat Shirt™ is a combat-specific garment specifically designed to be worn under body armor. It keeps you cool with wicking, lightweight, high-performance, flame-resistant DRIFIRE® torso fabric and reinforced Mil-Spec 50/50 NYCO ripstop sleeves. Designed for use with our patented removable AirFlex™ Elbow Pads (sold separately). The G3 Combat Shirt™ features a zip collar that allows easy donning and doffing while keeping slings, straps, and brass off your neck. Made in the USA from US materials. Patented, other patents pending.

Available sizes: XS-3XL in Short, Regular, and Long lengths.

## G3 FIELD PANT™

### FEATURES

Each cargo pocket conceals water bottle/magazine stabilizer ▪ Dedicated knife/light holder that still allows pocket access ▪ Larger front thigh pockets ▪ Designed for use with our patented removable AirFlex™ Field Knee Pads ▪ Extended zip fly ▪ No-snap button closure

### DESIGN

Like the G3 Combat Pants™, the G3 Field Pants™ are sized with 2-inch waist increments for perfect fit without bulky hardware. 10 pockets located for easy access in the same configuration as the G3 Combat Pants™. Shaped knees are reinforced and accept our AirFlex™ Field knee pads. Fabric is Mil-Spec 50/50 NYCO ripstop. Zip fly. Made in the USA from US materials.

Available sizes: 28–46 waist in Short, Regular, and Long lengths.

## G3 FIELD SHIRT™

**FEATURES**

Double-layer bicep pocket with new eye-pro hanger and pen pockets ▪ Flexible Velcro® configuration on bicep pocket ▪ Designed for use with our patented removable AirFlex™ Elbow Pads (sold separately) ▪ Dual-access NoProfile™ chest pocket design

**DESIGN**

This G3 Field Shirt™ is a traditionally tailored general utility shirt featuring dual-entry chest pockets (top and side) for easier access while wearing body armor, a pen pocket on the left arm, and slanted, dual layer bicep pockets with new segmented Velcro® panels for reduced bulk. The bicep pockets include new eye-pro hanger feature. Shaped elbows are reinforced and accept our patented removable AirFlex™ Elbow Pads (sold separately). Fabric is Mil-Spec 50/50 NYCO ripstop. Made in the USA from US materials.

Available sizes: XS–3XL in Short, Regular, and Long lengths.

## FIELD SHELL™

### FEATURES

Extended pit zips ▪ Extreme weather resistant 4-way stretch NanoSTX™ laminate with wicking knit interior face ▪ Soft lined collar and zipper placket for added comfort ▪ Versatile intermediate body length ▪ Drawcord hem ▪ Flexible Velcro® configuration on bicep pocket

### DESIGN

The FieldShell™ is a versatile and refined softshell jacket that offers significant utility in almost any weather. Our 4-way stretch laminate with NanoSTX™ creates a highly breathable, lightweight, and extremely wind/rain resistant outer garment. Packability, clean lines, and refined features are the hallmarks of this garment. From the flat hidden-zipper front to the discreet zip mesh pockets that double as internal storage, this design remains uncluttered while still being multifunctional. Pit zips allow ventilation when needed. Made in the USA from US materials.

Available sizes: XS-3XL.

## WINDLINER™

### FEATURES

Stowable hood ▪ Folds and stores into single mesh-lined cargo pocket on sleeve ▪ Stirrup thumb cuffs ▪ Featherweight, high-performance NanoSTX™ treated fabric ▪ Elastic-bound hem ▪ Drawcord hem ▪ Soft lined collar and zipper placket for added comfort

### DESIGN

Extremely light and packable jacket that offers outstanding wind and weather resistance in a handy featherweight package. The WindLiner™ folds into its own single mesh-lined cargo pocket. Perfect for packing light and countering unpredictable weather conditions. Made in the USA from US materials.

Available sizes: XS-3XL.

COMBAT

FIELD

## ALL WEATHER PANTS™

### FEATURES

Unique low-profile waist adjust system ▪ Each cargo pocket conceals water bottle/magazine stabilizer ▪ Dedicated knife/light holder that still allows pocket access ▪ Simple kneepad height adjuster located in front thigh pocket ▪ Designed for use with removable AirFlex™ Combat Knee Pads ▪ Built-in flap covers kneecap opening when not using knee pads ▪ Stretch diamond gusseted crotch ▪ Rear zip pockets ▪ Larger expansion panel at lower back ▪ Larger front thigh pockets ▪ Double seated rear

### DESIGN

Our All Weather Pants™ are based on the same no-compromise design of our G3 Combat and Field Pants™ but built from a 4-way stretch woven fabric treated with NanoSTX™ for extreme weather resistance. These combat-proven pants are sized in 2-inch waist increments and multiple lengths for a perfect fit. 10 pockets. Designed for use with our patented removable AirFlex™ Combat and Field Knee Pads (sold separately). Zip fly with Velcro® closure. Unique low-profile adjustable waist feature. Made in the USA from US materials.

Available sizes: 28–46 waist in Short, Regular, and Long lengths.

MULTICAM®

## ALL WEATHER COMBAT SHIRT™

### FEATURES

Mid weight wicking FR torso ▪ Extreme weather resistant 4-way stretch NanoSTX™ laminate with wicking knit interior face ▪ Soft lined collar and zipper placket for added comfort ▪ Flexible Velcro® configuration on bicep pocket ▪ Streamlined elbow pad configuration designed for use with our removable patented AirFlex™ Elbow Pads ▪ Water shedding bicep pocket opening

### DESIGN

The All Weather Combat Shirt™ is based on the same no-compromise design of our G3 Combat Shirt™ but built from a 4-way stretch woven laminate treated on the exterior with NanoSTX™ for extreme weather resistance. The new All Weather Combat Shirt™ is designed to offer the versatility of our proprietary Combat Shirt™ architecture combined with the moisture and temperature management features needed when operating across a wider temperature range. A wicking, midweight, high-performance flame resistant DRIFIRE® knit torso and reinforced 4-way stretch laminate sleeves provide a warmer base than our standard G3 Combat Shirt™. Large easy access zip vents allow a massive amount of ventilation when needed. Designed for use with our removable patented AirFlex™ Elbow Pads (sold separately). The All Weather Combat Shirt™ features additional stretch woven upper back coverage for added weather protection and a zip collar that allows easy donning and doffing. Made in the USA from US materials. Patented, other patents pending.

Available sizes: XS-3XL in Short, Regular, and Long lengths.

INSULATED

SHELL

# HALFJAK™

**FEATURES**

Absolute minimal material (packs down small) ▪ NanoSTX™ treatment sheds rain and snow ▪ Does not block access to any of your gear ▪ ClimaShield™ insulation for extreme performance and packability (Insulated version) ▪ No need to remove kit to don/doff ▪ Extended rear panel covers small pack ▪ Front hooks clip to vest for added security ▪ Numerous stowage options ▪ Stuff sack mounts via MOLLE, belt, or Velcro® ▪ Folds into interior pocket, forming a pillow (Insulated version) ▪ Mounts to vest as a hand warmer (Insulated version)

**DESIGN**

The HalfJak™ is a new minimalist concept in combat-specific weather protection. It helps you stay warm and dry while avoiding overheating during movement. No needing to stop and remove kit to layer up or down. No interference with your gear and no delays while you're on the move. Instantly transition back and forth between highly-aerobic and stationary activities without getting sweaty or cold.

Traditionally, operating in cold/wet weather meant that you could only: A) carry a bulky coat that you can't operate in, B) freeze now so you won't sweat later on, or C) layer up now and hate life later when you're moving and sweating. Now, you can just throw the HalfJak™ on over your kit to stay warm and dry, and then shove it back in its stuff sack when you're moving. Simple.

The **HALFJAK™ INSULATED** version is our new take on combat-specific cold/wet gear. Made with ClimaShield™ loft material, it is extremely light, packable, and warm. The exterior fabric is treated with a NanoSTX™ finish that keeps the water out.

The **HALFJAK™ SHELL** is the shell version of this jacket – made with an ultra-light waterproof breathable 3-layer laminate, offering great protection from the elements and breathability along with extreme packability.

Available sizes: SM–2XL. Made in the USA from US materials.

MULTICAM®

## COMPACT ASSAULT GHILLIE™

DESIGN

A ghillie that packs down to about the same size and weight of a baseball.

Snipers aren't the only people on the battlefield who benefit from concealment. The Compact Assault Ghillie™ is a new, lightweight, low-bulk concept in assaulter concealment. It is light and small enough to carry with you or wear full time. Laser-cut 3D shapes physically break up the most visible human outline – the head and shoulders. Removable rear dual-layer panel folds forward over to conceal a long gun or binoculars. The open cut and featherweight materials allow massive airflow and prevent overheating. Stuff sack mounts to MOLLE or a belt. Made in the USA from US materials.

Sizes: MD–XL.

## G3 RANGE VEST™

### FEATURES

Integrated back and side ventilation ▪ Designed to seamlessly integrate with the G3 Combat Shirt™ ▪ New dual-access NoProfile™ chest pocket design

### DESIGN

The G3 Range Vest™ is a simple low profile garment designed as a complement to our G3 Combat Shirt™ for situations when armor is not being worn. Simple and uncluttered design. Zip front, packs small to fit in to cargo pocket. Made in the USA from US materials.

Available sizes: XS-3XL.

## FRAG SHORTS™

DESIGN

So comfortable, you'll never realize you're wearing ballistic underwear. Designed to defeat lower-velocity fragments, the groin, peritoneal, and femoral areas are made from Kevlar® and the sides of the undergarment feature high-stretch DriFire® wicking mesh. Available in multiple weights. Made in the USA from US materials.

Available sizes: XS-2XL.

KHAKI

MULTICAM®

NEW 2013

# SKULLCAP™

### FEATURES

Polyester/Spandex blend printed fleece ▪ Lined earband for additional warmth ▪ Eyelets for eye protection

### DESIGN

The SkullCap™ is a fitted, 3-panel cap, cut for maximum coverage and situational awareness. It keeps your ears warm and doesn't block your peripheral vision. Made from a custom fabric that allows MultiCam® to be printed directly onto the fleece, this mid-weight Polyester/Spandex blend blocks wind and retains warmth while stretching to comfortably fit most heads. Light enough to fit under a helmet but warm enough to be worn alone. Made in the USA from USA materials.

One size fits all.

## ADAPTIVE VEST SYSTEM™ (AVS™)

### FEATURES

Lightweight, extremely comfortable, and exceptionally stable ▪ Quick-release option ▪ Three options for side closure ▪ Two options for side armor ▪ Quick-Mount™ pouch attachment system on cummerbunds ▪ Extended full-coverage back armor panel available ▪ Load support harness can be removed to wear as thinnest, lightest configuration ▪ Chest rig component able to be worn with or without armor ▪ Shoulder buckle can be mounted on either left or right side or totally removed ▪ New custom lightweight, high-strength plate bag adjuster hardware ▪ MBAV-cut plate bags available

### DESIGN

**Introducing the AVS™ – a revolutionary system that quickly configures as anything from a low-vis rig to a fully armored load-bearing vest... And everything in between.**

Changing calibers? Simply switch out your front mag panels. Switching load-outs? Quickly slide off your modular pouches without unweaving them. Shifting threats? Just add or remove armor panels without having to modify your gear load out. Varying missions? Configure it as a load bearing vest for recce work and switch right back to a fully-armored configuration with ease. Attach packs, zip-on rear panels, StKSS™ load supports, and many other accessories – the options are infinite.

Available sizes: SM–XL. Made in the USA from US materials. Patent pending.

**FAST AND FLEXIBLE** The Quick-Mount™ pouch attachment system on the AVS™ Harness component allows pouches over two webbing rows high to be easily slid onto the dual-layer cummerbunds (inner or outer) without having to be woven through any other webbing. This feature also makes it extremely quick and easy to add or remove armor panels – without having to modify your gear load out.

THE LIGHTEST PLATE CARRIER IN THE WORLD.

AIRLITE™  
PLATE CARRIER

NEW 2013

# AIRLITE™ PLATE CARRIER

## AIRLITE™ VS. TRADITIONAL MOLLE

**FEATURES**

Feather light (a medium EKO1™ weighs just a half pound) ▪ Ultra minimal, ideal for low-vis or overt ops ▪ Comfortable stretch closure ▪ Easily adjustable ▪ Attachment loops for AirLite™ detachable chest rig on front ▪ Fits a wide variety of plate shapes and thicknesses

**DESIGN**

It doesn't get any more minimal than this. Introducing a revolutionary material that removes up to 40% of the weight of a carrier while still providing full MOLLE pouch compatibility and improved tear strength over webbing and fabric systems. Our new AirLite™ material combines the fabric and the webbing functions of MOLLE into a single layer – greatly reducing the bulk and weight of the system. Ideal for applications where reduced weight is the priority. *Beware of imitations. Several outfits are offering copycat systems that look similar to AirLite™ but none offer the ideal balance of strength, stability, and weight savings we have achieved with AirLite™ – the original minimal system.*

**EKO1™**

The EKO1™ plate carrier is the lightest MOLLE-compatible plate carrier in the world. Although it's ridiculously light (medium size weighs just a half pound) it's also an extremely durable and strong carrier. In fact, the AirLite™ material has far better tear strength than webbing sewn to 500D nylon fabric. The EKO1™ was created to find out exactly how light and minimal one could go while still offering a plate carrier that was comfortable and durable enough for extended wear, mission after mission. We are proud to offer the EKO1™ as the definition of the extreme end of the lightweight spectrum. If you want a truly minimal plate carrier solution: minimal weight, minimal bulk, minimal complexity... Then the EKO1™ is your carrier.

**EKO2™**

The EKO2™ model is just like our EKO1™ but with the addition of two 6" wide side plate pockets.

Available sizes: SM-XL. Made the in USA from US materials. Patent pending.

## CAGE™ PLATE CARRIER™ (CPC™)

### FEATURES

Lightweight (3-5 lbs. depending on size) ▪ Accepts optional side armor inserts ▪ Integrated mag, radio, and admin pouches ▪ All parts are interchangeable with CAGE™ Armor Chassis™ components

### DESIGN

The CPC™ offers the same unsurpassed comfort and load support of our Armor Chassis™ but in a lower profile plate carrier configuration. It is releasable and accepts soft and hard armor inserts (sold separately). When paired with the BLAST™ Low Profile Belt, it becomes an extremely efficient and versatile armor and load carriage system. Designed from the ground up to take full advantage of our revolutionary StKSS™ system that transfers the vest weight to the wearer's hips.

Available sizes: SM-XL. Plate bags are sized independently and must be ordered independently of the rest of the carrier. Patented, other patents pending. Made in the USA from US materials.

R. GREEN

COYOTE

MULTICAM®

## CAGE™ ARMOR CHASSIS™

### DESIGN

Unlike any other armor vest, the CAGE™ (Crye Assault GEAr) Armor Chassis™ is the result of years of design and engineering. Made by an entirely new production process, the articulated Chassis provides the most comfortable and stable armor/load-carriage platform to date. The design provides passive cooling via large air channels that run under the armor. Designed for use with our armored BLAST™ High Back Belt™, the CAGE™ Armor Chassis™ is fully modular and highly adjustable. Designed to be worn snug to the body like sports equipment. Features include: dual emergency doff, accepts 6" x 6" side plates and shoulder strap plates, front opening access, uninterrupted side coverage (no side seam), exceeds IBA and USASOC frag and handgun requirements.

Available sizes: SM–XL. Plate bags are sized independently and must be ordered independently of the rest of the carrier. Patented, other patents pending. Made in the USA from US materials.

## JUMPABLE PLATE CARRIER™ (JPC™)

### DESIGN

A new lightweight and minimalist addition to our vest line-up. Unsurpassed weight savings and packability at just over 1 lb. for the entire carrier. The JPC™ offers a wide variety of configuration options, from completely slicked-down to fully loaded-out with side plates and our revolutionary new AirLite™ cummerbund (shown above) that features our patent-pending integrated attachment system. This allows pouches to be mounted on both the inside and outside of the cummerbund and sheds unnecessary weight and bulk while improving ventilation. Made in the USA from US materials. Patents pending.

Available sizes: SM, MD, LG, XL. Two additional side armor options available for purchase separately.

StKSS™ INSTALLED ON CPC™ AND BLAST LOW PROFILE BELT™

## StKSS™ LOAD SYSTEM

FEATURES

Extremely simple and lightweight ▪ Highly flexible and easy to use ▪ Very little impact on range of motion ▪ Does not limit vests' emergency-release capability ▪ Available in all sizes for AVS™, CPC™, and CAGE™ Armor Chassis™ ▪ Kit includes two lengths for perfect fit

DESIGN

Nothing short of revolutionary, StKSS™ is a system that allows a wearer to selectively transfer some or all of the weight of his armor load vest to his hips. **StKSS™ allows the wearer's shoulders and spinal column to be completely isolated from the weight being carried.** Instead, the weight is transferred directly to the pelvis (hip bone) and legs. The effect is unmistakable and the benefit is undeniable to those familiar with what wearing a 60+ lbs. vest for months on end does to your lower back. Patents pending. Made in the USA from US materials.

R. GREEN

KHAKI

MULTICAM®

## LV-RBAV™

**DESIGN**

US SOCOM's new LV-RBAV, this carrier accepts SPEAR RBAV soft inserts and offers a full coverage, streamlined vest for low-visibility applications. Both shoulder and cummerbund are internally adjusted providing an ultra-slick external surface. Includes internal support for 6" x 6" side plates. Combine with our detachable chest rig for less covert use. Includes elastic internal and external cummerbunds. Compatible with most standard plates. Cummerbund with integrated radio/mag carrier available. Detachable chest rig available separately. Made in the USA from US materials. Patents pending.

Available sizes: SM, MD, LG, LG LONG, XL, XL LONG

NEW 2013

# NIGHTCAP™

## FEATURES

No helmet needed to use NVGs ■ Highly adjustable headband and chin strap ■ Stable and comfortable ■ Battery pack attachment ■ Simple low-profile chin strap ■ Cable routing channels ■ Padded structural support for NVG mount

## DESIGN

Solving the problem of wearing NVGs when you don't need a helmet, the NightCap™ is great for low-vis needs, general recce work, and even hunting. Stuff it in your pocket until needed and then just clip your NVGs in for a lightweight and stable option when a helmet is not needed. Packs down to practically nothing. Feels like wearing a baseball hat. Simple, adjustable, and breathable. The NightCap™ was designed in conjunction with the original group that requested it, and is now available to everyone. Compatible with all current 3- and 4-hole NVG mounts (does not include NVG mount).

One size fits all. Made in the USA from US materials.

BLACK

R. GREEN

COYOTE

MULTICAM®

## MODULAR RIGGER'S BELT™ (MRB™)

### DESIGN

A single, lightweight belt system that carries your gear and holds up your pants. Features our new LoopLock™ inner belt layer that passes through pants belt loops, keeping the belt oriented and stable.

There are two main ways to configure the system to suit any operational need:

1. Keep the inner LoopLock™ layer attached to belt for most secure and stable setup.
2. Wear inner layer as a separate low-profile pants belt for added versatility.

### DESIGN

Multiple pistol mounting options (on inner layer, on exterior MOLLE, and on main belt) ▪ Two versions are available: one includes a load-rated main belt; the other includes main belt for uses that do not require safety ratings ▪ Ergonomically-shaped for long wearing comfort ▪ Extremely light and low bulk ▪ Compatible with our StKSS™ load support system ▪ Cleanly stores a retention lanyard (sold separately) ▪ Inner belt functions on its own as a great low profile pants belt (no hardware) ▪ Ballistic and padded inserts available

Available sizes: SM–XL. Made in the USA from US materials. Patent pending.

## BLAST™ HIGH BACK BELT

### DESIGN

Combining the benefits of lower back support with flexible armor protection, the BLAST™ (Ballistic Load And Support) High Back Belt is an extremely stable and comfortable load carriage platform. It allows you to carry holsters, pouches, and thigh rigs securely and comfortably. It is designed to work in combination with our CAGE™ Armor Chassis™ or other operator-cut vests. Accepts rifle protective upgrade plates. Exceeds IBA and USASOC frag and handgun requirements. Made in the USA from US materials.

The BLAST High Back Belt™ is compatible with Crye Precision™ Suspenders and Side Sleeves.

Available sizes: SM-XL.

SUSPENDERS

COYOTE

MULTICAM®

## BLAST™ LOW PROFILE BELT

**DESIGN**

Similar to the original BLAST™ High Back Belt but cut in a lower profile, the new BLAST™ Low Profile Belt is also an extremely stable and comfortable load carriage platform. It is designed to work in combination with almost any armor vest. Optional soft armor insert exceeds IBA and USASOC frag and handgun requirements. Also accepts our rifle protective upgrade plates. Made in the USA from US materials.

The BLAST™ Low Profile Belt is compatible with Crye Precision™ Suspenders.

Available sizes: SM-XL.

SUSPENDERS

## ARMOR COMPONENTS

### 1 CONTOURED GROIN PANEL™

3-dimensionally formed for increased coverage. Unique attachment allows weight to be carried by pants not vest. Exceeds IBA and USASOC frag and handgun requirements. Made in the USA from US materials. Colors: UCP, Ranger Green, Coyote, and MultiCam®

### 2 LOWER ABDOMEN PROTECTION™ (LAP) PANEL

Our LAP Panel™ adds more soft armor coverage and load carriage area. It also incorporates two pockets for rifle protective upgrade plates. It is compatible with most military and commercial body armor vests currently in use. Exceeds IBA and USASOC frag and handgun requirements. Made in the USA from US materials. Colors: Ranger Green, Coyote, and MultiCam®

### 3 GROIN PROTECTION SYSTEM™ (GPS) NEW 2013

Building on our existing Contoured Groin Panel™, the GPS™ provides optional peritoneal, femoral, and lower back protection without restricting mobility. Peritoneal protection stores flat under front flap until needed. Sizes 1 & 2. Color: MultiCam®

### 4 PLATE BACKING SOFT ARMOR INSERT

Soft armor panel for use with non-standalone plates. Exceeds IBA and USASOC frag and handgun requirements. Made in the USA from US materials. Sizes SM–XL.

### 5 CAGE™ PLATE CARRIER™ SOFT ARMOR INSERTS

Soft armor panels for sides of CPC™. Exceeds IBA and USASOC frag and handgun requirements. Made in the USA from US materials. Two per set. Sizes SM–XL.

### 6 BLAST™ LOW PROFILE BELT SOFT ARMOR INSERT

Soft armor panel for BLAST™ Low Profile Belt. Exceeds IBA and USASOC frag and handgun requirements. Made in the USA from US materials. Sizes SM–XL.

## ARMOR ACCESSORIES

### 1 ZIP-ON PANELS

#### A. PACK

Zips to rear plate. Simple versatile pack that can hold essential supplies. Features a built-in expandable hydration/bolt cutter pocket. Colors: Ranger Green, Coyote, and MultiCam®

#### B. POUCH

A dedicated pouch panel that zips to rear plate. Holds multiple 37/40mm grenades/bangs across the top, a GP pouch in the middle, and MOLLE webbing on the bottom. Features a built-in expandable hydration/bolt cutter pocket. Colors: Ranger Green, Coyote, and MultiCam®

#### C. MOLLE

A quick attach/detach system to set up dedicated load outs. Zips to rear plate. Features a built-in expandable hydration/bolt cutter pocket. Colors: Ranger Green, Coyote, and MultiCam®

### 2 LIGHTWEIGHT POUCHES

We have developed a full line of lightweight pouches that are available by custom order. Colors: Ranger Green, Coyote, and MultiCam®

### 3 StKSS™

See page 24 for details.

### 4 SIDE-PULL MAG POUCH

A perfect way to carry and access two mags. Compatible with all of our plate bags. Colors: Ranger Green, Coyote, and MultiCam®

### 5 STRETCH MAG POUCH

A lightweight magazine holder that lets you carry and reach two mags on your side. Top or bottom pull. CPC™ compatible. Colors: Ranger Green, Coyote, and MultiCam®

### 6 ROLL-UP DUMP POUCH

A lightweight roll-up dump pouch that attaches onto the Velcro® of a plate bag, vest, or belt. Colors: Ranger Green, Coyote, and MultiCam®

# SPARTAN

MAXILLOFACIAL BALLISTIC PROTECTION

## SPARTAN™

### DESIGN

The SPARTAN™ provides maxillofacial ballistic protection that snaps onto standard ACH helmets in seconds.

Historically, 40% of combat deaths are due to head wounds. One third of deaths due to head injuries are caused by wounds to the face, an area not covered by the helmet. Head and neck injury rates are up 50% compared to earlier conflicts. Over 70% of head and neck wounds are inflicted to the face.

The SPARTAN™ protects over 50% of the exposed area of the face. TBI (Traumatic Brain Injury) is diagnosed in a majority of all current combat casualties. SPARTAN™ lessens TBI risk by significantly reducing blast effects transferred to wearer.

### FEATURES

Same ballistic performance as helmet ▪ Does not interfere with weapon firing ▪ Does not obstruct vision, even while looking downwards ▪ Does not interfere with eating, drinking, or communication ▪ Able to be donned and doffed in seconds ▪ ACH-compatible right out of the box (no hardware needed) ▪ Compatible with NVGs and standard tactical goggles ▪ Flexible and lightweight (less than 1 lb.) ▪ Optional nose/mouth cover available ▪ Easily folded and stowed

## MAGCLIP™

### DESIGN

The MagClip™ provides new options for carrying and using magazines. Ideal for applications where low visibility, rapid access, or additional capacity is needed.

Simply clip the magazine to any horizontal edge and grab when needed. The MagClip™ attaches directly to the magazine and remains on the magazine – no pouch necessary. Unique clip design allows many carry options: inside the waistband, on a belt, on MOLLE webbing, clipped inside a pack or case, inside a cummerbund, clipped to a vehicle door panel or under a seat.

While not intended to replace all magazine pouches, the MagClip™ is great for quick-access mags, adding mags wherever you have space, low-vis missions, or just throwing a few mags on a belt to hit the range without kitting up. Compatible with most 5.56 magazine types including GI mags, Magpul® PMAGS™ and EMAGS™ and HK® mags. Other calibers available soon. Patents pending.

GUNCLIP™

## GUNCLIP™

### DESIGN

Introducing the GunClip™, an entirely new approach to carrying and deploying a handgun. Any light, any suppressor, any platform, any orientation, any situation. Even if you're in a cramped vehicle or wearing an armored vest with a gun on your belt, the GunClip™ allows you to deploy your handgun and get on target. Fast. And its small size means minimal weight and space is taken up when not in use.

A single adjustment sets rotation (360 degrees) and securely clamps the mount to almost any platform (belt or MOLLE). Fits belts up to 2 inches tall. Currently available for all Glock 17, 19, 22, and 23 pistols. Right hand mount. Other models available soon. Patents pending. Made in the USA from US materials.

### FEATURES

- 1 Quickly opens by unsnapping the retention tab while reaching for handgun
- 2 Retention flap immediately releases and weapon can be instantly detached from main body
- 3 Mount is compatible with all MOLLE platforms and belts up to 2" tall
- 4 Single adjustment sets rotation angle, 360 degrees
- 5 Allows use of nearly any light, suppressor, and/or sight
- 6 Simple, one-handed operation to re-secure handgun

AIRFERRAMITE™  
COMPATIBLE

ARC  
SYSTEM

**AIRFRAME™**

TAN

# AIRFRAME™

## AIRFRAME™ SYSTEM

### FEATURES

Revolutionary vented shell design for passive cooling ▪ Covers more of wearers' nape than traditional designs ▪ Modular rifle level front shell available ▪ Modular ear and face protection available ▪ Modular ARC-Rail™ system available (O<sup>2</sup> compatible)

### DESIGN

The AirFrame™ ballistic helmet sets new standards in protection, comfort, and modularity. Weighing a full 20% less than an ACH 2002 while offering more ballistic coverage, the AirFrame™ helmet exceeds ACH frag threats while greatly reducing head-borne weight. Various models available with varying performance characteristics. Patents pending.

Sizes: MD, LG, XL

AIRFRAME™ HELMET COVER IN MULTICAM® AVAILABLE, SOLD SEPARATELY.

TAN

## RAILS

**DESIGN**  
Based on the Ops-Core® ARC Rail™ Architecture, this system allows any number of accessories to be mounted to the helmet. It also provides an attachment for an O<sub>2</sub> mask, NVG retention bungee cords, and cable management tie-downs. The Ops-Core® ARC Rail™ system used under license from Ops-Core® Inc.

## EARS™

**DESIGN**  
Scalable and modular ear protection. Uses same attachment system as the Chops™. One size fits all AirFrame™ helmets.

## CHOPS™

**DESIGN**  
Easily attached and removed with one hand, the Chops™ offer mission-tailorable maxillofacial protection. The Chops™ provide simple lightweight ballistic protection that doesn't compromise communication, hydration, or situational awareness. One size fits all AirFrame™ helmets.

**FEATURES**  
Allows proper sighting and firing of weapons ▪ Eliminates blind spots inherent to traditional face protection ▪ Able to be donned and doffed in seconds ▪ Compatible with NVGs and most standard tactical goggles ▪ Flexes to fit various face shapes ▪ Provides fragmentation and blast protection

# COMPONENTS AND ACCESSORIES

## STOCKPAD™

The StockPad™ is a low profile adhesive-backed rubber grip pad that is easily applied to the Chops™ allowing better grip and traction against the rifle stock while sighting. Available for left and right side.

## PELTOR® RAIL ADAPTER

This adapter was specifically designed to allow direct integration of Peltor® hearing protection / active comms with the AirFrame™ helmet by easily sliding and locking securely into position onto the Rails.

## CRYE PRECISION™ OFFICIAL SCHWAG

CRYE PRECISION™ LOGO TEE

Precision™ t-shirts make perfect field dressings, improvised dust masks, and function pretty well as birthday gifts too.

BLEND IN™ TEE

Subtle BLEND IN™ slogan printed on the front, plus a small MultiCam® logo on the sleeve. Your loser friends will think you're promoting some kind of social movement – the good ones will know you're supporting our combat-proven camouflage that's hard at work every day giving our guys an edge.

GUNS KILL HIPPIES™ TEE

These shirts are all about peace, love, and understanding... That no one needs hippies.

LOCAL 5.56™ TEE

A union shirt you can actually be proud to wear. New navy shirt with tan ink colorway.

SHOOTERS CAP

Identical to the Crye Precision™ logo cap – instead this version features a Velcro® loop panel on the front. Patent Pending. Made in the USA from US materials. Berry compliant.

CRYE PRECISION™ LOGO CAP

Our take on the classic ball cap, with some subtle differences. No metal rivet on top. The underside of the brim is a black Velcro® receptive material which accepts our VisorLites™. This version features an embroidered CP logo on the front. Patent Pending. Made in the USA from US materials. Berry compliant.

## MAJOR LEAGUE INFIDEL™ OFFICIAL SCHWAG

MAJOR LEAGUE INFIDEL™ TEE

Wear this one to your next mandatory cultural-diversity-sensitivity training session. Always sure to start friendly conversations on airplanes, malls, and hippie protests of all sorts.

MAJOR LEAGUE INFIDEL™ VINTAGE SHIRTS

Tenth anniversary limited edition MLI™ shirt with vintage look and feel.

MAJOR LEAGUE INFIDEL™ CAP

Identical to our other caps – instead this version features an embroidered MLI™ logo on the front. Patent Pending. Made in the USA from US materials. Berry compliant.

MAJOR LEAGUE INFIDEL™ CHROME EMBLEM

Chrome MLI™ emblems ideal for trucks and tanks.

MAJOR LEAGUE INFIDEL™ STICKER

These high quality glossy stickers look good on almost anything... except an '85 Dodge Aries K. Available in two sizes.

MAJOR LEAGUE INFIDEL™ MUG

A fun holiday gift for that useless hippie uncle we all have. (Mug imported; printed in the USA.)

## ABOUT US

Crye Precision designs and manufactures truly innovative equipment for America's fighting forces. We are proud and honored to serve our customers' needs. We spend as much time as we can with users, continuously incorporating their experience and feedback into the gear. We give them our full support and are indebted to them for their service and their sacrifice. We make uncompromising gear for uncompromising individuals. We work hard to provide smart, high-performance, long-wearing gear for people who demand the best. We make all of our gear in America from American materials. Every item is designed to help you perform better.

## WARRANTY

If a defect in materials or workmanship is found in any of our products, we will repair or replace it, free of charge, for the lifetime of the product. This excludes normal wear and tear. Be aware that the customer is responsible for any and all return shipping charges. This applies to the original purchaser and is nontransferable.

## BODY ARMOR

It is against Federal Law for a person convicted of a violent felony to purchase or possess body armor. In addition, various states also have laws restricting the purchase or possession of body armor by persons convicted of certain felonies, other crimes of violence, or drug crimes. By purchasing body armor, you acknowledge and certify that (I) you have no felony convictions, (II) you have not been convicted of any other crime that would restrict your ability to purchase or possess body armor under any Federal or State law, (III) you do not intend to use the body armor for any criminal purpose and (IV) you are over 18 years old. Crye Precision reserves the right, in its sole discretion, to refuse to sell body armor to any person. Additionally, the sale of body armor to residents of Connecticut is restricted to in-person sales, unless the sale is made to certain law enforcement or military personnel. We require that all orders of body armor be accompanied by a government issued photo identification.

## ACCURACY

We try very hard to keep the information in our catalogs as accurate and up to date as possible. However, errors may occur that may sometimes result in inaccurate information being displayed. This includes, but is not limited to: product description, images, sizing information, and availability. Additionally, we are constantly updating products based on user feedback from an evolving battlefield. Some products features may vary from what is displayed in the catalog. This catalog is meant to serve as a useful guide and commerce tool. Crye Precision is not responsible for any errors or discrepancies. Item designs are subject to change.
