

Chardonnay 2010

Our 2010 Chardonnay is particularly special to us as the large majority of this wine was produced from our estate vineyard in East Kelowna. To this we incorporated grapes from the Black Sage Road, combining the weight and tropical southern character with the floral, mineral core which we see in our home vineyard.

From a cool, long season, our tank-fermented Chardonnay saw a tiny amount of French oak – to provide a light counterpoint, rather than a heavy foundation, to the delicate nature of this season’s fruit.

With aromas of green and yellow apples, meal and warmed hazelnut, the palate of this Chardonnay is vibrant and mouthwatering, leaving a final peel of citrus and stone fruits on the finish. This wine underwent partial malo-lactic fermentation and spent 5 months on fine lees with no stirring.

385 cases were produced.
