

MK MOLD & MILDEW REMOVER

DIRECTIONS: Read entire label before using. Test a small inconspicuous area to determine surface suitability and desired results. **IMPORTANT:** Use full strength. Do not dilute. *For lightly soiled surfaces:* Spray **MK Mold & Mildew Remover** directly onto surface and clean with a terry towel or scrub sponge. *For heavily soiled surfaces:* Spray **MK Mold & Mildew Remover** into soiled areas, let product stand for 2-3 minutes and agitate with a soft bristle hand brush or scrubbing pad. Wipe surface with terry towel and clean water. For heavy buildup and stubborn mildew stains on grout and tile surfaces, use **MK Intensive Cleaner**. For surfaces susceptible to mold or mildew, apply **MK Mold & Mildew Shield**. Use **MK Grout Sealer** every 12-18 months to make cleaning easier, provide a layer of protection against dirt and grime and maintain the natural beauty of tile surfaces.
