

MK PENETRATING TILE & GROUT CLEANER

IMPORTANT: DO NOT USE ON POLISHED MARBLE OR NATURAL STONE SURFACES.

DIRECTIONS: Read entire label before using. Follow steps as directed. Test a small inconspicuous area to determine surface suitability and desired results. IMPORTANT: Use full strength. Do not dilute. Rubber gloves and eye protection are recommended.

STEP 1: Apply a liberal amount of **MK Penetrating Tile & Grout Cleaner** directly onto grout joints or on a sponge or mop and apply to the tile surface.

STEP 2: Allow the product to penetrate and loosen dirt and grime for 2-3 minutes.

STEP 3: Agitate the surface with a wet hand brush, scrubbing pad or deck brush adding clean water as needed.

STEP 4: Rinse the surface thoroughly with clean water to remove any residual product.

STEP 5: For heavily soiled surfaces, repeat steps 1-4 as necessary. For surfaces susceptible to mold or mildew, use **MK Mold & Mildew Shield**. Use **MK Grout Sealer** every 12-18 months to make cleaning easier, provide a layer of protection against dirt and grime and maintain the natural beauty of tile surfaces. For routine cleaning and conditioning of natural stone and tile surfaces, use **MK Neutral Floor Cleaner**.

MK Penetrating Tile & Grout Cleaner

is another custom blended product made in the USA for

Marble Kare Products, Inc.
