

NATURE
MADE IT
WE JUST
BOTTLED IT

Created by Nature

You can see and feel nature's energy most in Spring, with the bright green burst of new growth. But even in the cold depths of winter or the lush height of summer, the natural world is working.

Living Nature has bottled this constant push towards growth and renewal for the health and vitality of your skin.

We use New Zealand's unique native botanicals with their ability to heal, purify, nourish and protect your skin. Just some of our remarkably bioactive ingredients include Harakeke Flax gel to soothe and hydrate, Active Manuka Honey to nourish and heal, and Kumerahou to cleanse without breaking the skin's moisture barrier.

It's energetic, active skincare created by nature
– we just bottled it.
