## FABRICS

### **Circa 50 by Monaluna for Birch Fabrics – 100% Organic Cotton**

Treated with love not pesticides! This debut line of 100% Organic Cotton from Birch Fabrics mixes Eames Era appeal with whimsical juvenile accents that lend themselves perfectly to nursery bedding, quilts and clothing as well as being sophisticated enough for cushions on your sofa or curtains. They should be in the shop by the end of the week.

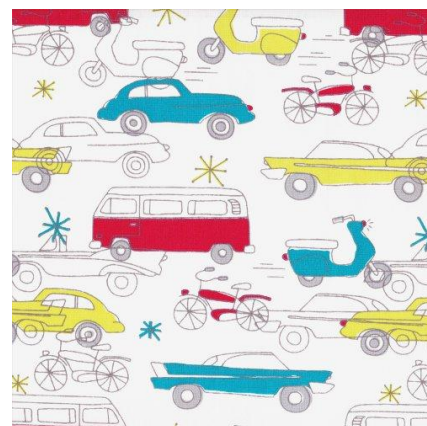

This fabric is beautifully soft and is manufactured from 100% GOTS certified Organic Cotton and printed with low impact dyes. GOTS is the Global Organic Textile Standard.

They are just WOW!

### **Heather Ross's Far Far Away II**

Yes, it is on its way. I had hoped to have my shipment by the end of June but due to the popularity of many of the new fabrics from Kokka, they have to remanufacture several of the fabrics that I have ordered and the shipment is now expected in early August. I can tell you based on the samples it is worth the wait! Sometimes it is hard living at the bottom of the world (sigh).

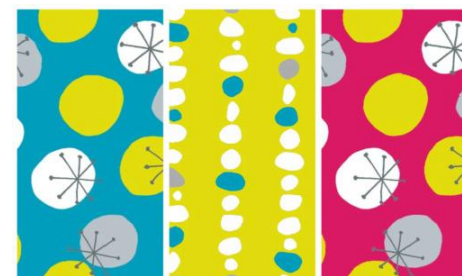

The new Heather Ross range is printed on a cloth with 20% linen 80% cotton and it is just beautiful.

**Cars – Circa 50**

**Woodland Friends - Circa 50**

**Starburst Blue, Pebbles Citron, Starburst Strawberry**

**Owl and the Pussycat Heather Ross**

### Oh No – they have discontinued them!

I don't buy any fabrics I don't love, but there are some that are just up there. When I sell the last piece of them I feel sad to see them go.

I could not believe it but some of the most amazing Echino fabrics have been discontinued, finito, that is it, so if you are like me and love Tiger on Flower, the Scooter and Cars you better be in quick to snaffle up the last of these fabrics. And don't be surprised if I quiz you about what you will be making, just to check that you are the right person to have these fabrics ☺.

Kokka have however brought out some great new fabrics which are due in the August shipment.

### SAFFRON CRAIG QUILT

This is another easy quilt, this time using the Saffron Craig Owl range. I am in to easy; I have done my share of flying geese blocks etc, but now I like to create designs which show off the fabric. No surprises there I guess.

If you would like to make a similar quilt I am happy to provide an outline of what I did. You can also check out more on my blog <http://stitchbird.blogspot.com>
