CONSERVATIVE OR ORTHODOX SIGNATURE LINE OPTIONS

Most rabbis require traditional “witness only” signature lines directly under the conservative or orthodox Hebrew text. If you would like nontraditional witness lines, they will go under the English text (if you are including English text on your ketubah). If you plan to have conservative or orthodox text on your ketubah and would like to include English and/or have nontraditional signature lines, please make sure to discuss this with your rabbi before submitting your order form.

Please note that not all design options will have enough space to accommodate both English and Hebrew texts.
If you are opting to have English on your ketubah, make sure to fill out the “English Section” on your order form.
If you want to have only Hebrew on your ketubah, do not fill out the “English Section” on your order form.
