nilion Stiharion

150

ABOUT OUR STANDARD SIZING.

- The stiharion length is adjustable through a cleverly placed fold enabling the stiharion to be simply lengthened by up to 2" (5cm).
- The felonion is made of generous proportions, the length at the back is designed to finish 6-8 inches off the floor.
- The felonion is not a close fitting garment across the shoulders, The RIZA cut in a particular size, will accommodate marginally smaller or larger body types.
- The Epitrahilion has a slightly dropped neck allowing for comfortable movement and finishes with tassels extending to just above the floor.
- Tassels can be trimmed back, up to 2 inches for those who prefer a slightly shorter epitrahilion.
- Compare your own measurements with those that correspond to your RIZA STANARD SIZE.
- Unless you are extremely thin or very large, your RIZA STANDARD SIZE should provide you with a good fit.
