

Disclaimer

The information contained on this website is not intended to replace competent medical advice, and none of the claims or observed results have been evaluated by the FDA. This information is designed merely for informational purposes, to share what amount of science is currently known, and what anecdotal experiences some have had, so as to lay a foundation for further research.

This information is to be used for educational purposes only and has been based solely on the traditional and historic use of a given clay or powder, or on clinical trials that are generally not recognized by any US government agency or medical organization. This information has not been evaluated by the US Food and Drug Administration.

Furthermore, the information presented here is not presented with the intention of diagnosing any disease or condition or prescribing any treatment. It is offered as information only, for use in the maintenance and promotion of good health in cooperation with a licensed medical practitioner.

In the event that any individual should use the information presented on this website without a licensed medical practitioner's approval, that individual will be diagnosing for him or herself. No responsibility is assumed by the author, publisher or distributors of this information should the information be used in place of a licensed medical practitioner's services. No guarantees of any kind are made for the performance or effectiveness of the preparations mentioned on this website.

We urge anyone with questions about the safe use of clay & other products, or if you are pregnant, to check with a knowledgeable healthcare provider before using. We do not claim that these products cure, treat or prevent any disease or ailment. The Federal Food, Drug and Cosmetic Act requires this notice.
