

# LUNCH RACK INSTALLATION

## *guide*

### REQUIRED TOOLS:

- *5mm Hex Wrench*
- *4mm Hex Wrench*
- *3mm Hex Wrench*
- *8mm Box Wrench*

[SEE FIGURE 1.]

### INCLUDED HARDWARE:

- *Mounting Bracket*
- *M3 X 12mm bolts (2)*
- *M4 X 15mm bolts (2)*
- *M4 Locknuts (2)*
- *M4 Washers (6)*

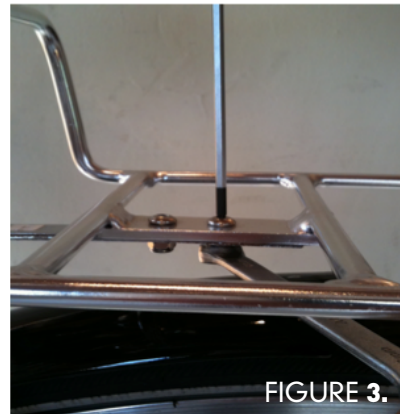

[SEE FIGURE 2.]

- *Attach Mounting Bracket to lunch rack with M3 X 12mm bolts, washers and M4 Locknuts. Do not tighten down.*

[SEE FIGURE 3.]

- *Remove front brake using a 5mm Hex Wrench. (Skip step if there is no front brake.)*

[SEE FIGURE 4.]

- *Slide brake bolt through Mounting Bracket.  
\*If no front brake, slide a large bolt through Mounting Bracket that will thread into a Locknut. (Not Included)*

[SEE FIGURE 5.]

FIGURE 5.

- *Tighten down brake bolt into front fork.  
\*If no brake bolt, tighten Locknut onto large bolt into front fork.*

[SEE FIGURE 6.]

FIGURE 6.

- *Mount the lower braces to the fork braze-ons with M4 X 15mm bolts and M4 washers using the 4mm Hex Wrench.*

[SEE FIGURE 7.]

- *Level the Lunch Rack.*

[SEE FIGURE 8.]

- *Tighten all bolts.  
Lunch Rack is installed.*
