Hushed Elegance

HUNIFORD

James Huniford

"Many people wanted bespoke furniture designed by me," said James Huniford, a decorator known for his quiet, contemporary style. "They didn't want to hire a decorator but they wanted stylish, well-proportioned pieces that are made in America." The Huniford line of upholstered furniture is all custom made (your fabric or his) and offered at the showroom alongside lamps of his design and vintage and antique pieces, handpicked by the decorator himself. Decorating assistance is available; the fee depends on the job.

John's Sofa, \$5,000.
Pheasant Feather Lamp, \$950.

From Ming To Modern

BEELINE AT TRELLIAGE

Bunny Williams

"My philosophy is to design timeless rooms," said Bunny Williams, who started her career at Parish Hadley before opening her own decorating business 23 years ago. "I use a mixture of old and new designs to create spaces made to be lived in." (And sipped in: Every chair needs a drinks table next to it, Ms. Williams said). She said her collection is for people who want to buy furniture and lamps with a refined sense of design at accessible prices.

At her retail store, Trelliage, floor samples are for sale and many pieces are stocked and ready to be delivered.
