The formal living room's symmetry and scale help establish a sense of understated grandeur. Tall pedestals frame gracious French doors, lacquered furnishings contribute gleaming, glamorous touches, and a striking capiz-shell chandelier, more than seven feet in length, draws the eye toward soaring ceilings.

EDDIE'S TOP Summer STYLE TIPS

1. **Bring the outside in!** Make your rooms feel like summer with potted plants. Think maidenhair ferns and ivy that can droop over a mossy terra-cotta pot. Plant stands are a great seasonal addition to freshen up a room.
2. **Take the inside out!** Don't stop with an outdoor dining table and seating area. Set up a summer bedroom on a covered porch. Restoration Hardware, Pottery Barn, and CB2 all carry fantastic outdoor beds, chairs, and pillows that take outdoor naps to a new level.
3. **Give your rooms a summer facelift.** By switching out curtains for sheers, adding a sea-grass or sisal rug, and accenting with colorful throws and pillows, you can give your home a warm-weather renovation. Don't be afraid to mix colors—blues, greens, yellows, and oranges can all look great together on a neutral sofa. Restoration Hardware and Pottery Barn have beautiful sheers and rugs, and Jonathan Adler and West Elm are the perfect places to go for pillows and throws.
4. **Lighting is one of the most important aspects of design,** and the same holds true for outdoor illumination. Ylighting.com has a terrific selection of contemporary outdoor lamps. Paired with light strings from Restoration Hardware, they will brighten up any nighttime outdoor gathering.

The living room's soothing white decor is punctuated by dramatic dashes of sea blue and turquoise. The ceramic lamps are from Bunny Williams' BeeLine Home collection.

The fireplace wall, covered in three-foot-by-three-foot white undulating tiles, subtly underscores the home's coastal theme.
