Mirror, Mirror

Not your average looking glass, Zieta's Rondo mirror gets its reflective properties courtesy of high-gloss stainless steel. Mount it on a wall or leave it on the floor and roll it to a new spot for a quick feng-shui fix. Find it at **Circa 50**, Manchester Center, Vt., (802) 362-3796, circa50.com

**Fancy Footwork**

You'll be soaking in style with the vintage-glam Circe claw foot bathtub from Kallista, now at **Ann Sacks**. The cast-iron tub is enameled white on the inside and primed black on the outside, allowing buyers to paint it the color of their choosing. *Boston Design Center*, (617) 737-2300, annsacks.com

**Fine Lines**

Chevron was everywhere in 2012. This year, **Tile Showcase** is offering a fresh take on the ubiquitous pattern with this handmade cement tile, called Tilt, from Sabine Hill. *Boston Design Center*, (617) 426-6515, tileshowcase.com

**Curves Ahead**

With its gently bending, crisscrossed base, Currey and Company's Dashiell table lamp, now at **Vermont Lighting House**, offers a softer take on geometric design. *Shelburne, Vt.*, (802) 985-2204, vermontlightinghouse.com

**Modern Mural**

Massachusetts-based muralist Susan Harter, known for her classically inspired landscapes, recently launched a line of wallpapers based on her sought-after work, now available at **Webster & Company**. *Boston Design Center*, (617) 261-9660, webstercompany.com

**Better Off Red**

Bunny Williams's home furnishings collection, BeeLine Home, made its Boston debut at **Lee Jofa** last fall. The lacquered Pagoda coffee table was just one item of many that caught our eye. *Boston Design Center*, (617) 428-0370, leejofa.com
