Juliska Juliska
Juliska Juliska

*This season, we say...
Forego restaurants and entertain at home!*

We find inviting people behind our front door - where they are surrounded by the walls that define us - enables a far deeper level of connection. Whether thoughtfully setting an enchanting table replete with name cards, pressed linens and shimmering candles, or huddling in the kitchen to concoct a sumptuous meal while laughing, nibbling, and sipping as we go - there is a greater bond established in that exchange of love. Oh ... and the conversation is far more illuminating, stimulating and uproarious!

*And when it comes to washing dishes,
don't you find those who stick around to help scrub pots,
stick around for life?*

*For us, autumn and winter mean togetherness, rejoicing in family traditions and abundant gratitude. In that spirit, this edition of *L'Amour & Savoir Vivre* highlights our latest designs for all your entertaining needs. 'Tis also the season for prezzies - yippee! We have curated a scrumptious selection of gifts for the people on your 'Nice' list. Now your only real dilemma is to give 'em or keep 'em? We hope you will join us in savoring each moment, making your own rules and always finding reasons to celebrate!*

With Love and Thankfulness

from the bottom of our teacups...

*Capucine & David Gooding
Founders*

We adore the vibrant changing colors of autumn when rich greens still linger and crisp breezes usher in jeweled hues of *amber, pumpkin, and plum.*

Harvest

Orange is a surprisingly versatile and fabulous color - it makes everything you pair it with really pop. Our new Autumnal Traditions collection celebrates the activities we enjoy at this time of year like apple picking and diving into leaf piles! Fall is a wonderful jumble of bursting colors and textures. A nature stroll can produce a bounty of gorgeous table decorations. Try collecting lichen covered branches, acorns, moss, berries, pine cones, feathers...and scattering them across your dining table or in loose romantic bouquets.

Fresh layering ideas: Autumnal Harvest

1. *Orange is a warm and joyful color. Love it!*

2. *Pair orange with blue for stunning contrast...*

3. *Pop it into a subtle earthy palette.*

Firenze Medici

Our Firenze 'Marbleized' 'Medici' collection is inspired by the ancient art of swirling Florentine marbleized papers. This sumptuous combination of real gold and platinum pays homage to the illustrious Medici family whose wealth and arts patronage is often credited for the European Renaissance.

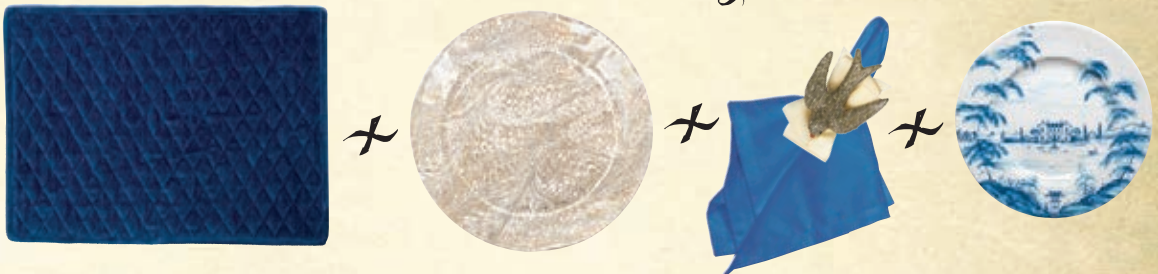

As Firenze 'Medici' contains real gold and platinum, it is not suitable for the microwave or dishwasher...but it's too fabulous to resist!

Fresh layering ideas: Bohemian Shimmer

1. Keep it simply sparkling with whites

2. Pair metallics with blue and white for a fresh formality

3. Formal and luxurious when layered with Pewter Stoneware

1. Winter Frolic

This collection makes us grin and beckons us to run outside, make snow angels, pelt each other with snowballs, and return rosey checked to the welcome of marshmallowy hot cocoa. Each unique piece features our quintessential English Country Estate with joyful wintery scenes. The classic red and white palette allows you to dress it up with your fine silver pieces and red roses, or keep it casual with warm rustic elements like pine cones and clove-stuffed clementines. The oversized comfort cup is probably our favorite piece - curl up with steaming homemade soup or tea and wrap your hands around it for, well, comfort!

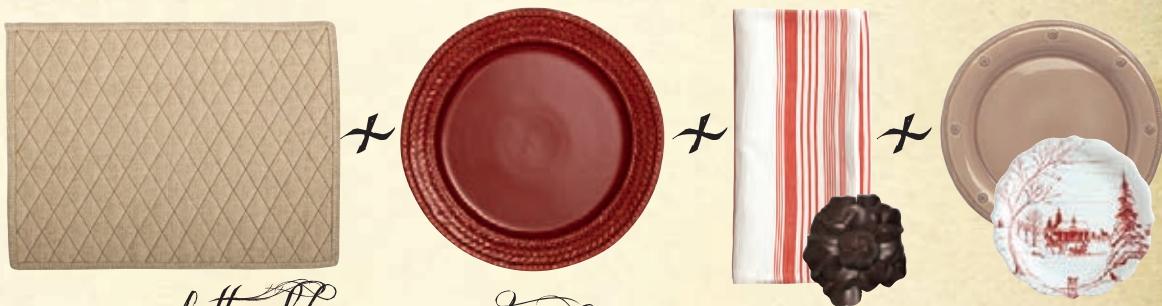

Fresh layering ideas: Winter Frolic

1. Red, white and Merry!

2. Plaid, flint, and red are chic and classic

3. A palette of brown and ruby transport you to the countryside
