

Dear fellow parents,

Many parents had asked me about the real objective behind our programs. There is only a single aim! We hope to help your child to **make friends with words**. By making friends with words, your child is enabled to appreciate reading from young. This invites your child to a fascinating world of learning.

My 4 kids had benefited much from our programs. Hazel (my wife) and myself have picked up a couple of practical lessons along the way:

- (1) Be **Patient** - Our children have lots of time. By prescribing 1 - 2 lessons a day, your child will appreciate and benefit from this gentle pace of learning.
- (2) Be **Participative** - We are our children's role models. Learn together with them.
- (3) Be **Passionate** - Learning is not about academics and grades. It's about our proactive approach towards life and knowledge.

## Important Rules for Speak & Read flashcard-based DVDs Series

**# 1 Rule: Stop before your child wants to stop.**

Our children are emotive learners therefore play the lessons during their best moods.

Keep the lessons to a maximum of 2 lessons. This helps your child to sustain his/her interest in learning.

## Important Rules for Speak & Read flashcard-based DVDs Series

**# 2 Rule: Reinforcement is essential in  
early learning.**

This is why early childhood experts always encourage repetition. Repetition is essential to help your child in remembering words effectively.
