Australian Maker Space

Filastruder Bundle

My 3D Media and Filastruder have teamed up to create a fantastic offer for the Maker Spaces of Australia.

By combining the most popular home filament extruder with locally supplied ABS pellets and universal masterbatch, we are able to offer a low cost flexible filament production process that can be used within your Maker Space.

Say good bye to

- Inconsistent filament size between colours
- Investing in filament stocks that sit around absorbing moisture and collecting dust
- Having to purchase 1Kg rolls of rarely used colours
- Purchasing separate rolls of filament for different print head/extruder sizes
- Retuning your printer when you change filament batches, suppliers or colours

The Filastruder will deliver low cost, reliable and flexible filament production to your Maker Space today.

Eliminate the need to stock multiple colours and types of filament. By keeping a supply of natural ABS pellets and a selection of universal masterbatch colourant, you'll benefit from an on-demand supply of filament in any size, length or masterbatch colour. And of course you aren't limited to specific colours because you can alter the shade and mix masterbatch colourants as required.

Bundles are available providing each Maker Space with the option to stock pre-packaged, 500g and 1Kg ABS pellets for member use or resale. Each package is individually sealed and ready to use.

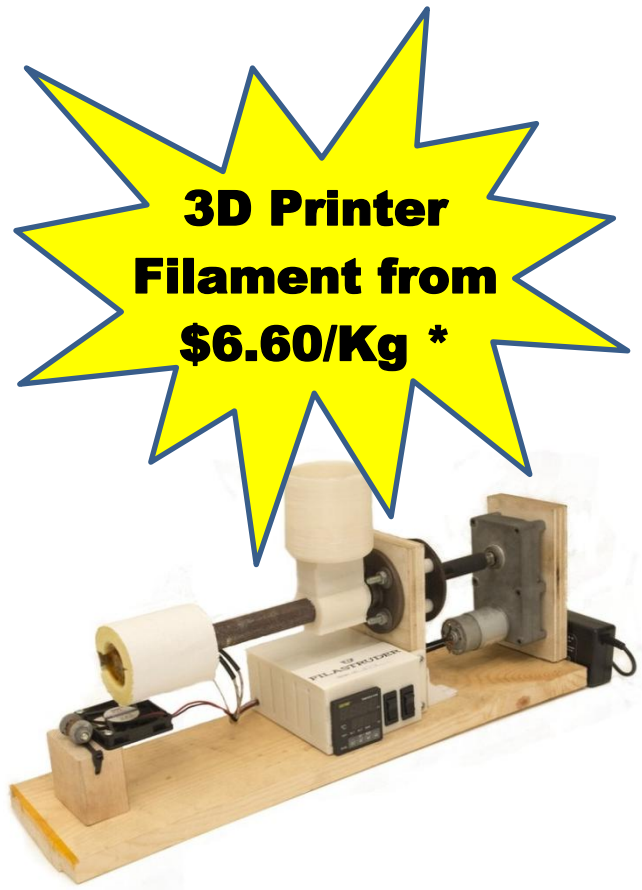

All bundles include a Filastruder, standard nozzle, additional nozzle(s) with integrated melt filters (two filters per additional nozzle), ABS pellets, masterbatch, shipping within Australia and optionally a laser cut plywood case.

FILASTRUDER

My 3D Media Filastruder bundles:

- The Filastruder is supplied in kit form; assembly time is 2-3 hours and requires minimal tools.
- A 3D printer is required to print the hopper, funnel and electronics - models for these parts are available via thingiverse.com. Alternatively these can be ordered separately if required.
- Base and Starter Kits require a user provided mounting base (wooden board) if a laser cut case is not purchased
- Bundles include one 1.75mm, 3mm or undrilled nozzle plus one or two 1.75mm or 3mm nozzle(s) each with two melt filters
- Universal Masterbatch is supplied in individual 50g packages. Colours included are Black, Blue, Brown, Green, Orange, Red, White and Yellow.
- Universal Masterbatch can be used with ABS, PLA and other polymers.
- **Free Standard Shipping** Australia wide with the “**makerspace_promo**” discount code

Model	ABS Medium Flow	ABS High Flow	Master-batch	Other	Bundle Price	Filament Cost **
Filastruder Base Kit		1 x 1Kg		1.75mm or 3mm nozzle	\$339.95	\$17.95/Kg Save 4%
Filastruder Starter Kit	1 x 1Kg	4 x 1Kg	8 x 50g	1.75mm or 3mm nozzle	\$399.95	\$15.59/Kg Save 8%
Filastruder with case	1 x 1Kg	4 x 1Kg	8 x 50g	1.75mm or 3mm nozzle and a laser cut case.	\$449.95	\$15.59/Kg Save 8%
Filastruder Medium Kit	2 x 500g 2 x 1Kg	10 x 500g 8 x 1Kg	16 x 50g	1.75mm and 3mm nozzle and a laser cut case.	\$609.95	\$13.62/Kg Save 14%
Filastruder Large Kit	3 x 2Kg	13 x 2Kg	16 x 50g	1.75mm and 3mm nozzles and a laser cut case.	\$699.95	\$9.62/Kg Save 17%
Filastruder Bulk Kit	1 x 2Kg 12 x 2Kg	3 x 1Kg 36 x 2Kg	40 x 50g	1.75mm and 3mm nozzles and a laser cut case.	\$1,295.95	\$9.04/Kg Save 30%

Note:

* 25Kg High flow ABS from My 3D Media is available in addition to the promotional ABS media at \$165.00 per 25Kg. This provides for a \$6.60/Kg cost (plus GST and delivery as applicable).

** Filament cost shown is the average cost of producing filament with the ABS media and masterbatch included in the bundle, no crazy maths has been used, just subtract the Filastruder cost from the bundle price and divide by the number of kilograms of ABS pellets. Producing natural filament would further reduce the cost as the masterbatch costs wouldn't be included. If masterbatch is included in the bundle then its included in the comparison. Purchase price, maintenance and running costs of the Filastruder have not been included in the calculations. All pricing is in Australian dollars and excludes GST unless specifically listed.

*** Filastruder bundles from www.filastruder.com include a half pound of Sabic MG94 ABS pellets these are not included in this promotional bundle.

Savings: Includes price comparisons from www.filastruder.com (Filastruder USD\$249.99 plus USD \$45 shipping, laser cut case USD\$39.99 plus USD\$10.00 shipping and nozzles with melt filters USD\$24.95) and web pricing from www.my3dmedia.com.au. Savings include discounts received when purchasing ABS pellets in bulk. An exchange rate of USD\$1 = AUD\$1.07 has been used in presenting RRP, changes in the exchange rate will alter the savings.

Terms and Conditions: This offer is open to any Maker Space, Maker Space employees, volunteers and members within Australia. Pricing is valid until 31st December 2013. Delivery is typically 14-21 days but can vary depending on local stock levels. Promotional pricing is based on monthly bulk orders of Filastruder units. If the delivery time is expected to exceed 30 days a full refund will be offered at time of order or on request after 30 days. No additional discounts can be used in conjunction with this promotion. My 3D Media reserves the right to change this promotion without notice.
