Analysis

Supplies: All Mastery Charts for Cumulative Progress Assessment 1

Teacher Instructions:

Answer the question at the bottom of each Mastery Chart that you used today, marking "yes" or "no" under each column that you completed.

Analysis and Next Steps:

If each chart completed today had "yes" answers, your student is ready to move forward to the next lesson continuing the pacing that you have been keeping.

If there were some "no" answers, with percentages 70% and above on the Mastery Chart for Letters Part A or Mastery Chart for Phonetic Words Reading, then you will want to highlight the specific letters and sounds that need more practice. You can move forward with the next lessons, being sure to include extra practice for the highlighted skills on the charts. Also, be sure to include these letters and sounds in the weekly Progress Checks to ensure that the student is moving towards mastery.

If the student scores below 70% on the Mastery Chart for Letters Part A or Mastery Chart for Phonetic Words Reading, additional review of previous lessons is recommended prior to re-testing. The focus should be on phonics cards, letter tile activities and the Decodable Readers. After review and second assessment if the student continues to score below 70% accuracy on the Mastery Chart for Letters Part A or Mastery Chart for Phonetic Words Reading contact the Up-Words reading staff for consultation on how to best help your student move towards mastery.

If the student scores below 70% accuracy on the Mastery Chart for Sight Words continue to review the misread words on a daily basis until mastered. If the student scored above 70% accuracy on the Mastery Chart for Letters Part A and Mastery Chart for Phonetic Words Reading you can move forward with the next lessons being sure to review the misread sight words while introducing new materials.
