

BUSHRANGER SE

READY FOR ANY ADVENTURE.

INTRODUCING THE NEWEST MEMBER OF THE BUSHRANGER FAMILY.

The BushRanger SE Camper Trailer is an expedition-ready, off road trailer built in partnership with AT Overland Equipment and featuring Timbren Axle-Less off road suspension. On top of the trailer is a side-folding canvas trailer tent from OZtrail® – the Heart and Soul of Aussie Camping.

The BushRanger SE provides generous sleeping and living quarters, plus a large awning area with optional SunRoom enclosure available. Camp setup takes only minutes and the tent module, including the mattress, poles and awning, packs up above the trailer, leaving the cargo box available for gear storage. The tent base also tilts on gas struts for hassle free access to camping gear.

Campers enjoy a large living space when deployed and generous cargo capacity, with an expedition trailer that can be stored in the average garage, is compact enough to be towed with a wide variety of vehicles, and that will capably follow your lead on every adventure.

Optional SunRoom

BUSHRANGER CAMPER TRAILERS

TRAILER TENT SPECIFICATIONS

The OZtrail Outer Ridge Venturer is a full-featured family size trailer tent that sleeps a family in comfort with a split level, side-folding design. Features include:

- Easy one-touch pole adjuster so you setup quickly and easily
- Convenient 2 door access to sleeping and living quarters
- Complete shelter with SatProof™ 600+ Ripstop Canvas walls and SatProof™ 800+ silver impregnated canvas roof for superior waterproofing, anti-mould and UV protection
- Insulcell triple layer insulated roof keeps you cooler while rolled edge design protects you from driving rain
- Heavyweight PVC vinyl floor designed for harsh environments
- Fully galvanised rigidity-enhanced tent frame and awning poles
- Gas Strut System gives trailer access via mattress access door or tilts entire tent to get to large items
- Zip off reinforced heavy duty PVC dust cover with anti-ponding straps
- Complete insect protection from ultra-fine No-See-Um mesh on all doors and windows
- DuoDoor™ so you can open canvas and mesh doors independently but operate a single zip to get in or out
- Gusseted bedroom window with adjustable poles for all-season ventilation and shade
- Removable clear PVC window lets light in when ventilation is not required
- 4" deep open cell high density Queen Size foam mattress with removable, zipoff washable poly-cotton mattress cover
- Vinyl wall mattress guard helps keep bedding dry and protects from condensation
- Lantern loop to hang lights or accessories
- Lightweight aluminium square section non-slip bed access ladder
- Removable privacy curtain for the main bed area
- Removable large front awning featuring Draft-Block™ fastening system for attachment of optional '3 in 1' sunroom and heavy duty PVC floor
- Awning poles, pegs and ropes included

*GVWR includes all options and features added to the base trailer plus water and fuel storage. All measurements are approximate and should be used as a guide only.
