

Look and Feel Young Again

Scientific studies show that more than 90% of the Collagen found in our body is Collagen Type I & III. It consists of 19 amino acids (protein composition) responsible for growth, maintenance, and repair of the body. **Type I & III (A Natural Source of Chondroitin, Glucosamine and Hyaluronic Acid)** are *major components* of hair, skin, nails, muscles, tendons, ligaments, bones, gums, teeth, eyes, and blood vessels.

Eating Right Isn't Enough Anymore!

As we age, the foods we eat don't contain enough collagen protein-making nutrients to support an active life-style. That's why supplementation on a daily basis makes sense.

- Helps maintain lean muscle mass for weight management control
- Improves elasticity in connective tissue
- Healthy, active joints and mobility
- Helps repair blood vessels for better circulation
- Promotes wound healing and pain relief
- Get a clearer complexion, less wrinkles
- Strengthens bones - builds bone matrix
- Thickens fine hair - slows down hair loss
- Prevent premature aging and promote youthful vitality
- Our Collagen parallels the amino acid structure of our own body's Collagen assuring 100% absorption into the blood stream where cellular changes occur
- *The glue that holds our body together*
- Our Type I & III are the building blocks for all of our body's major systems. Say "good-bye" to aches and pains

"Feel the Difference"
