Compliance

Poolrite Spa Suction and Main Drain outlets have been tested as compliant with AS1926.3 2010. All new stock will meet these standards and are marked permanently with this test data.

WARNING

Poolrite Suction Outlets are tested in accordance with AS1926.3 2010

It is the responsibility of the installer to ensure that the maximum allowable flow rates as displayed on the inside of these Suction Outlet Covers are not exceeded.

Poolrite recommends that installers understand the requirement of AS 1926.3 2010 to ensure compliance.

Part #	Description	Compliance #	Max. Flow Rate (L/min)
2801	40mm Threaded	1121492691	144
