Quilting Services

The quilting rates below are based on a square foot.

(To calculate the square footage - multiply width by length for total square inches. Divide Total square inches by 144 to give Total, in square feet _____.) ie. An 80" x 70" quilt top = 5,600 inches, divide by 144 to get square feet = 38.8 square feet. Therefore, to machine baste a 38.8 square foot quilt at $1.50/sq ft, will be $58.20.

   Prices subject to change, but accurate as at 1st July, 2014
   Please call 0438877664 to discuss postage rates.
   I can also supply batting, Presently I have;
   - Hobbs Heirloom 80/20 cotton poly 96" wide priced at $18.00 a metre
   - Matilda's Own King size pure cotton 120" wide priced at $24.00 a metre
   - Other batting I can get as required, but you are more than welcome to supply your own.

Please make sure the quilt is free of loose threads, (fasten them off) and that the batting and backing is 4-6 inches larger than the top to be quilted (quilting tightens the quilt). Press the quilt top with seams going to one side of each seam line. Do not baste the edges, but please label the top of the quilt top, the backing and the batting with a safety pin, and ensure that any pieced backing has seams pressed open.

When posting, please use a box slightly larger than needed so it can be returned in the same box.
