Using Your indeegear® Approved MasterLock®..... 4

Adjusting your indeegear® Luggage Belt

1. Remove your indeegear® luggage belt from the packaging.
2. Check sizing by putting the belt around your luggage with the belt sliding under the handle and closing the buckle.
Figure 1
3. Adjust the luggage belt to fit tight by moving the slider on the belt to shorten or lengthen. Figure 2
4. Recheck sizing after adjusting to insure it fits tightly.
5. When checking your bag with airlines or cruise ships, please place buckle and lock under handle to protect it from luggage handling. Figure 3

Adding your indeegear® Collectible Sleeves to your luggage belt

1. Remove the Collectible Sleeve from the packaging.
2. Save the organza bag and use it for small items such as jewelry when traveling.
3. The backing on your Collectible Sleeve is an elastic webbing that will stretch to fit over the buckle of your indeegear® luggage belt.
4. With the buckle open, stretch the Collectible Sleeve onto it. We prefer adding sleeves onto the female side of the buckle, but it truly is “user’s choice”! It will take effort going over the buckle because it needs to fit properly on the webbing of the belt after moving over that. Don’t worry – they are made well in the USA! Figure 4
5. Slide the Collectible Sleeve all the way over the buckle and onto the webbing. Figure 5
6. Repeat for each Collectible Sleeve you have purchased.
7. Enjoy standing out with indeegear® and finding your luggage with ease. Figure 6
8. Add more sleeves to your collection!

Using Your indeegear® Approved MasterLock®

1. Remove your indeegear® approved MasterLock® from the packaging.
2. Follow the MasterLock® instructions to set your personal combination.
3. Insert the cable through the **SMALL INTERIOR** opening of the buckle. Figure 7
4. Lock your MasterLock® by inserting the cable into the lock and moving the combination numbers to complete the locking process per MasterLock® instructions.
5. When checking your bag with airlines or cruise ships, please place buckle and lock under handle to protect it from luggage handling. Figure 8
