DATACARD® SCHOOL ID SYSTEMS

Datacard Group delivers proven ID card solutions to K-12 schools based on over 40 years of knowledge and experience working with the education community.

Protect your students, staff and budget with the best value in school ID systems

They provide critical security. They improve efficiency in the cafeteria and media center. They even boost school spirit. Photo ID cards are an essential part of schools across the country. Datacard® school ID systems make it easier for administrators and principals to justify the cost of implementing photo IDs in their schools. We build value into every Datacard® ID system, so you get:

Enhanced security. When students, faculty and staff wear photo IDs printed on Datacard® systems, you can know at a glance who is authorized to be on campus. You can use the same IDs for access control to buildings, labs, computers and networks.

Fast, reliable issuance. One Datacard® printer can produce more than a thousand IDs on the first day of school. You'll not only keep registration lines moving, you'll help ensure security for the rest of the year.

Simplified operations. Both Datacard® identification software and our ID card printers are easy to learn and operate. School staff and volunteers can start issuing cards after just a few minutes of training.

Maximized investment. Beyond security, one ID card can be used to check out media center materials, access computers, and prevent costly meal service "piggy-backing" in the cafeteria.

More school spirit. With a versatile Datacard ID system, you can create visitor passes, sports schedules, student conduct reminders, and creative tickets for dances and special events — all with accurate school colors.

DATACARD® SCHOOL ID SYSTEMS

Get everything you need, from Datacard Group

Security, facilities, activities, budget — a lot of factors influence a school ID system. An authorized Datacard Group provider can help you evaluate all of them. Our providers are experts at working within your security, technical and budget requirements. They'll design the right ID system for your school, using industry-leading system components from Datacard Group.

Datacard® ID card printers deliver best-in-class performance and reliability.
- Advanced card handling minimizes jams while driving full-color print speeds up to 200 cards per hour.
- Cards and ribbons load in seconds to keep long print jobs moving.
- Easy to learn and operate with intuitive, soft-touch LCD control panels.
- Can be field-upgraded for functions such as magnetic stripe, proximity and smart card encoding.

Datacard® identification software makes producing ID cards easy.
- Design cards to show photos, text and bar codes, school colors and mascots.
- Exchange cardholder information with databases and enrollment systems.
- Expand with modules for proximity and smart cards, and visitor management.
- Choose the edition that fits current needs; then upgrade to add more capabilities.
Datacard® Certified Supplies support more reliable card printing.
- Full-color printer ribbons produce clear, vibrant image quality.
- Engineered and tested for total compatibility with Datacard® printers.
- Intelligent Supplies Technology™ reduces ribbon waste, prevents errors and automatically adjusts printer settings for optimum output.

Responsive, local support helps you get the most from your Datacard system.
- Authorized Datacard Group providers offer expert advice on system planning, buying and upgrades.
- Experienced technicians perform installations, upgrades and maintenance.
- Firsthand knowledge of local educational system; regulations and funding.

The new look of leadership.

Forty years of delivering powerful, integrated Datacard® solutions has given us the knowledge to satisfy customer needs today. Innovative product development using new technology, capabilities and features supports customers' forward-thinking initiatives. Our total solution is tailored to your needs using our broad portfolio of Datacard® desktop card printers, software and services.

Buy with confidence.

One of the most important features of every Datacard school ID system is peace of mind. You get a 30-month warranty on Datacard printers, and a 30-month printhead warranty with no pass restrictions. Plus, every Datacard product is backed by a global support network and over 40 years of Datacard Group experience.
