

Shuttle 2.1 - 13", 14", 15", 17" versions

The Shuttle is more than your typical, lightly padded sleeve. It's the ultimate compact computer case.

Small in size. Big on protection.

The Shuttle allows you to work directly from the case, reducing the likelihood of accidental damage. The cooldeck's non-slip riser pads facilitate airflow, keeping both your lap and computer cooler. Elegant simplicity is combined with road-warrior protection, providing everything you need in a compact case and nothing more.
