

GORDON McCALL

This stalwart of the Monterey historic week aims to become the fastest ever... on a bicycle

Gordon is America's West Coast representative for Christie's International Motor Cars, and an automotive specialist with the company. He's also a co-founder and board member of The Quail, A Motorsports Gathering, held at the Quail Lodge resort each August. For the past 15 years he and his wife Molly have produced the McCall Event kick-off party at the Monterey Jet Center during car week, 'entertaining 2700 of our closest friends!' Avidly caught up in planes, motorbikes and vintage race cars, McCall's lifelong interest in racing bicycles now focuses on his goal to break the current bicycle motor-paced Land Speed Record of 166mph this October at Bonneville. Having founded McCall Motorsports 26 years ago, and created a line of car polishes and waxes under the name McCall's, there seems no end to his pursuits inside this world of wheels. **William Edgar**

LOOK KG 186 BICYCLE

I have several bicycles, but for all-around training for my upcoming world Land Speed Record attempt, this Look carbonfibre French masterpiece is my favourite.

15 CYCLING EDERATION MEDALS

These represent a few of my time-trial victories – reminders that, as you get older, in order to win you just have to try a little harder.

1:43 SCALE FERRARI, LOLA, BENTLEY

Each of my scale models holds a personal meaning. A great friend, Ned Tanen, gave me this Ferrari 400 Superamerica – the real car was Enzo's. The Lola T70 came from Ed Leslie – one he drove for James Garner's team. The Bentley EXP Speed 8 was a gift from Bentley, after we displayed their Le Mans-winning car at our Jet Center party after its victory.

DASSAULT FALCON 7X JET MODEL

One of my model collections includes every airplane displayed over the past 15 years at our airport event. This is by far my favourite – the best-looking corporate jet ever built!

NAVY PLAQUE

My relationship with the US Navy goes way back, and the recognition is something I'm very appreciative of. Hitting an apex on track is one thing; catching the third wire on a carrier is a whole other story.

BOX OF CORGI TOYS

It all started here for me with these toys, some dating back to when I was five or six. You always wonder where your 'car seed' was planted. I can point to mine!

WATCHES

I love chronographs! The older watch was from Molly on my 40th birthday – a one-off by a watchmaker to earn his apprenticeship certification. The Breitling Bentley, one of my favourite watches, really fits my scale.

SILVER BOX

This was a wedding gift to my mother and father. My father died when I was eight years old, so I've kept this ever since as a reminder of him. I cherish it.
