

ChameleonSkinz™

color changing tape braided bracelet

What you need - Chameleon Skinz™ purple to pink color changing tape, Chameleon Skinz™ blue to white color changing tape, 1/2" plastic buckle, scissors

Instructions - Cut three pieces of 2" x 5/16" Chameleon Skinz™ purple to pink color changing tape. Cut two pieces of Chameleon Skinz™ purple to pink color changing tape and stick together. Cut two pieces of Chameleon Skinz™ blue to white color changing tape and stick together. Cut each piece to 5/8" width. Cut into 3/16" strips ending about 1/4" from the end. Layer pieces together. Tape the layered, uncut ends to the top of your working surface. Braid the strips together as you braid hair. When you come to the end, tape around to hold. Place the braided pieces around your wrist to determine the desired size of your bracelet and add approx. 1/2" more. Use one of the precut 3/6" tape pieces, wrap around end, trim off tape and trim off excess braid. Pull ends of braid through loops of buckle and bind with precut 5/16" pieces of tape. Enjoy your reversible color changing braided bracelet!
