

# Slimming Bladderwrack Body Pack

***Slimming Bladderwrack Body Pack is a fine algae powder which is used for thalassotherapy cures and spa treatments. When mixed with water, its fine texture makes an incredibly soft paste and liberates the active ingredients contained in the seaweed.***

This body pack contains 100 % ocean botanicals. Two types of seaweed, Bladderwrack and Lithothamnium, recommended for the elimination of the wastes are combined with Kaolin, white clay, to eliminate toxins by increasing perspiration during the treatment.

*Cet enveloppement associe les deux algues, Fucus et Lithothamne pour favoriser les processus d'élimination des déchets du métabolisme. Le kaolin, argile blanche, agit en synergie pour favoriser la sudation durant le soin.*

## FUCUS VESICULOSUS

Fucus vesiculosus (rockweed) is located in the North Atlantic Ocean. It lives attached to rocks.

## LITHOTHAMNIUM

Lithothamnium looks like coral. It lives on the seabed between 10 to 30 meters depth.

Lithothamnium contains magnesium, calcium and other marine trace elements.
