Novellon®

Inspired by the world of watches & clocks, Brand Novellon® was founded to revive the heritage of clockmaking by celebrating the charm of pendulum and art of wood working. In a mission to make fine clocks, we collaborated with seasoned partners and global industry leaders who shares the same interest. We sourced robust materials, precision engineering & finesse handcraft to produce elegant clocks. With globally inspired designs & trending styles, our collection fits contemporary lifestyle.

We as well take pride in introducing Grand wall clocks for the first-time in India. These clocks are 3' feet high, wall-mountable and meant to cascade the grandness of floor (aka grandfather) clocks.

With strategic process controls, quality focus and cordial customer experience, our vision is to make your place a grandeur with truly world-class clocks!
