Tips

- Just because a collection piece is labeled "centerpiece" or something different doesn't mean you can't use it for any of the below options. For example, you can use most centerpieces also as a gift table piece, if you have 10 guest tables, just add 1 more to your cart for your gift table which would make a total of 11 you are buying
- Bouquets can be used for head table - just request a vase for them
- Move ceremony pieces to the reception for double duty
