

Utility Retractable-Belt® Post

Rugged construction built for the elements.

Featured Product: Model 302/322

Built to withstand the toughest environments.

The Utility Retractable-Belt® is the answer for any industrial application. The outdoor-rated post is constructed of high quality aluminum and equipped with a solid base made from 100% recycled rubber.

The uniquely designed base allows for easy and repeatable assembly of the post. Simply slide the post into the base; no tools required, no connections to wear out. The base also includes a convenient carrying handle and a storage spot for when posts are not in use.

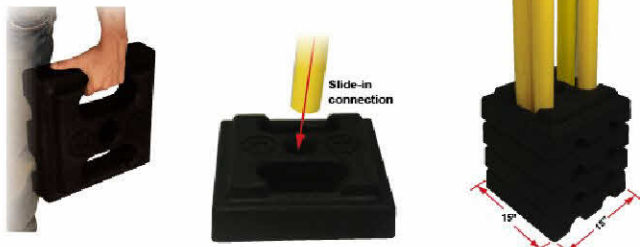

FACT: Each Retractable-Belt® Rubber Base prevents one tire from being sent to a US Landfill.

FACT: It takes seven gallons of crude oil to produce one car tire. *Institute of Scrap Recycling Industries, Inc., 2000*

FACT: Each year, motorists in the U.S. generate about 1 scrap tire for every man, woman and child in the country. *Waste News, 2002*

Unique Rubber Base Design

- ▶ **GreenVision Product:** recycled rubber base made from 100% post consumer products
- ▶ **Easy assembly:** no tools or connections to wear out – simply press the post into the base
- ▶ **Convenient carrying handle**
- ▶ **Small storage footprint:** 4 posts and 4 bases store in a 15"x15" area

* Rubber base is also available with any standard Retractable-Belt® model or finish. Use Model SUB-RB

Innovative Packaging
