6" Super Slope - Fresnel Lens Trim

Product Description

The NICOR Lighting 6-inch Recessed Super Sloped Shower Trim (17733WH) features durable steel construction to create a simple and attractive look to your shower. This wet location rated shower trim includes a unique Fresnel glass lens to distribute light evenly for maximum coverage. The 17733WH trim is designed for PAR30 or BR30 light bulbs rated up to 75-Watts. Developed for use in recessed super slope housings (between 7/12 and 12/12 pitch), the 17733WH produces a genuine look without compromising the efficiency of the light source. The 17733WH fits standard 6-inch super slope recessed housings using torsion v-spring clips (included) for installation. The 17733WH measures 9-inches in diameter with an open aperture of 5.5-inches. Use with any of NICOR's 6-inch recessed 17025SSA super slope housing for a perfect match or use with an existing 6-inch recessed super slope housing. The 17733WH is protected by NICOR's 1 Year Limited Warranty.
