INTERMEDIATE C-RING

Color: Red Part #: C9454

Black **C9447**

Max Diameter: 1.87" / 4.7 cm Not Insertable Weight*: 2.3 oz / 66 g *Note: Weight includes toy and packaging. These silicone C-Rings from Tantus are broad for comfort and safety. A c-ring holds the testicles down and keeps the testes from contracting thus slowing down ejaculation. The constriction takes orgasm from about 6 seconds to up to 45 seconds. For best results, apply lube to the inside of the ring, then ease one testicle trough at a time before finally pulling your cock through.

All Tantus toys are made from Tantus' own unique formula of 100% Ultra-Premium Silicone. The superior quality of Tantus silicone makes all Tantus toys hypoallergenic, non-toxic, phthalate free, odorless, bleachable, boilable and even dishwasher safe. These factors combined make Tantus toys the safest and most pleasurable toys on the market. A toy from Tantus is meant to be used and with minimal care Tantus toys can last a lifetime.

WHAT MAKES TANTUS TOYS THE BEST?

CLEAN

GOOD

Tantus values the sexual health of our customers over profit. When you contact us, you'll deal with a real human being who is committed to your satisfaction. The superior quality of Tantus silicone makes our toys hypoallergenic, non-toxic, free of phthalates, odorless, bleachable, boilable and even dishwasher safe.

FUN

Tantus toys are designed to be anatomically appropriate for human bodies to encourage the best sex ever! We celebrate sexuality and encourage consenting adults to explore their erotic side.
