The Delicate Chip Shot

by Doug Hendricks

When the pin is at the edge of the green, it requires perfect contact with the ball. To be successful, I make 2 adjustments:

#1. Choke down on the grip- by gripping down to the shaft I increase my feel of the club- head! This grip position also allows me to accelerate through the ball without the fear of hitting it past the hole!

#2. Narrow my stance- here I actually set my feet so there just about touching. This very narrow stance keeps my body from moving which allows me to make crisp contact with the ball!

Sometimes little shots require little adjustments. Add both of these tips to your set-up and I promise great results in your chipping game!
