## Lesson Tip: The Set-Up

by Doug Hendricks

Most successful golfers or low handicappers develop a set-up routine for each kind of shot. Whether you are in a bunker, or on the fairway, green or the tee; a good set-up is critical to a positive and consistent result. The set-up includes your grip, posture, ball position, and alignment. All of these areas deserve extra attention especially when practicing. Practice is where you build the trust and the habits that will allow you to trust your game on the golf course. There are also many training tools like "alignment sticks" that can assist you with your set-up. After 31 years of coaching, it's clear that most swing faults can be traced to some error in the set-up. Before each swing or stroke make sure your set-up is PERFECT!
