Read and understand these instructions before touching your bike, rack or a wrench

Be Sure To Locktight All Bolt's

Left side rack shown.

This can be done with the rack installed on the bike. For these instructions the rack will be off.

(It is easier with the Rack off the bike)

Consult the Rack Mounting instructions to mount your particular rack to your bike.

1. Mount Loop Clamps to Rack as shown. Fig 1

Fig 1

2. Attach the remaining Loop Clamps. Fig 2 Depending on model of rack you will need to place Loop Clamp on either side of the mounting tube.

Fig 2

3. Place Side Rack Plate on Rack with the countersink holes facing out, align the holes on the plate to the Loop Clamps. Place a screw through the holes in the Side Rack Plate, Through the Loop Clamp Holes and Washer and nut. Do this for all 4 Loop Clamps. Do not tighten at this time. Fig 3
